Notice of Routine Program Change Request for Incorporation of the Town of East Hampton Local Waterfront Revitalization Program into the New York State Coastal Management Program

PURSUANT to 15 CFR 923. 84(b), the New York State Department of State (DOS) is submitting a routine program change request to the Federal Office of Ocean and Coastal Resource Management (OCRM). The DOS considers this action to be a routine program change (to the State's approved Coastal Management Program) and requests OCRM's concurrence in this determination. The change to the New York State Coastal Management Program (CMP) covered by this request is the incorporation of the Town of East Hampton Local Waterfront Revitalization Program into the State's CMP.

A major component of the State's CMP is the provision that local governments be allowed to prepare local waterfront revitalization programs which further detail and make geographically specific the State's Coastal Policies. Each local program is reviewed for consistency with the State's CMP and approved if it meets the guidelines established in the State CMP and Article 42 of the NYS Executive Law.

The Town of East Hampton has completed preparation of a Local Waterfront Revitalization Program (LWRP). The LWRP is a locally prepared, comprehensive land and water use plan for its natural, public, and developed waterfront resources. The Town of East Hampton prepared its LWRP with assistance from the New York State Department of State and in accordance with the New York State Waterfront Revitalization of Coastal Areas and Inland Waterways Act and the New York State Coastal Management Program. The Town of East Hampton LWRP is a comprehensive coastal management program that is based on the policies of the New York State Coastal Management Program. It provides a comprehensive framework within which critical waterfront issues can be addressed and waterfront improvement projects can be pursued and implemented. The East Hampton Local Waterfront Revitalization Program will serve as a long term management program for the Town's waterfront resources. The LWRP proposes two minor boundary changes that would extend the coastal area inland from its current boundary in the vicinity of Tanbark Creek, Three Mile Harbor and in the vicinity of Pussy's Pond, Accabonac Harbor, to include key wetland parcels. By sustaining the existing land use patterns of the Town of East Hampton, building on development patterns and trends, and utilizing existing infrastructure provisions, this program seeks to help maintain and restore the community character of the Town of East Hampton, and protect and improve the natural and cultural resources that contribute to the Town's sense of place.

The Town of East Hampton LWRP incorporates the 44 State Coastal Policies and sub-policies. The Town's LWRP policies will be the basis for consistency determinations made by Town, State, and Federal agencies for actions in or affecting the Town's Coastal Area. To the extent that the Town of East Hampton LWRP policies differ from the State Coastal Policies, the local policies are more specific, identifying location and type of land and water uses to be accommodated within the Town's Coastal Area. Where appropriate, guidelines and standards are included in the Town of East Hampton LWRP to assist in applying the 44 State Coastal Policies and sub-policies.

Because a LWRP is an official document and program with provisions that are binding on numerous local, State, and Federal agencies for a broad range of activities, it is necessary to have a thorough process of local, State, and Federal review of the LWRP prior to local adoption and Department of State approval of each LWRP. As such, the East Hampton LWRP was reviewed during a required 60-day review and comment period from March 22, 1999 through May 24, 1999. At the beginning of this official review period, copies of the East Hampton LWRP were distributed to local, regional, State, and Federal agencies for their review. At the close of the required 60-day review period, the Department of State coordinated and assisted the Town prepare responses to the comments received during the 60-Day Review period, and appropriate modifications to the LWRP document were made to address all comments received. The East Hampton Town Board then adopted their LWRP on December 3, 1999. In addition to the LWRP, the Town worked hard on drafting and adopting all necessary LWRP-associated implementing local laws from the time of LWRP adoption to adoption of the final implementing local law in 2007. The New York State Secretary of State then approved the Town of East Hampton LWRP on December 20, 2007 pursuant to the New York State Waterfront Revitalization of Coastal Areas and Inland Waterways Act (NYS Executive Law, Article 42).

A copy of the approved Town of East Hampton Local Waterfront Revitalization Program is available for review in Albany at the New York State Department of State offices, Division of Coastal Resources, One Commerce Plaza, 99 Washington Avenue, Suite 1010, Albany, NY 12231-0001.

Any comments on whether or not the action constitutes a routine program change (to the State's approved Coastal Management Program) should be submitted by July 18, 2008 to: Carleigh Trappe, U.S.

Office of Ocean and Coastal Resource Management, Coastal Programs Division, SSMC4, N/ORM3, 1305 East-West Highway, Silver Spring, MD 20910.

Further information on this routine program change request may be obtained from: Jeffrey Beach, Division of Coastal Resources, Department of State, One Commerce Plaza, 99 Washington Avenue, Suite 1010, Albany, NY 12231-0001
