PUBLIC NOTICE Department of State F-2014-0556 (DA)

Date of Issuance – October 8, 2014

The New York State Department of State (DOS) is required by Federal law to provide timely public notice for the activity described below, which is subject to the consistency provisions of the Federal Coastal Zone Management Act of 1972, as amended.

The United States Army Corps of Engineers - New England District has determined that the proposed activity complies with and will be conducted in a manner consistent to the maximum extent practicable with the approved New York State Coastal Management Program. The consistency determination and accompanying public information and data is available for inspection at the New York State Department of State offices located at One Commerce Plaza, 99 Washington Avenue in Albany, New York.

In F-2014-0556 (DA), The U.S. Army Corps of Engineers, New England District, has published a public notice containing a consistency determination for the New England General Permit (NE GP), to authorize certain activities that require Department of the Army permits under Section 404 of the Clean Water Act, Section 10 of the Rivers and Harbors Act of 1899, and/or Section 103 of the Marine Protection, Research and Sanctuaries Act. The NE GP would autho-

size activities in waters of the U.S. within the boundaries of and/or off the coasts of the six New England States, including activities occurring within the boundaries of Indian tribal lands that have no more than minimal adverse effects on the aquatic environment. The NE GP would be issued in accordance with Corps regulations at 33 CFR 320 - 332 [see 33 CFR 325.5(c)(1)]. General permits are issued on a regional or State-wide basis to streamline the authorization of activities that meet predetermined parameters that would result in minimal individual and cumulative adverse effects on the aquatic environment. A Division may elect to add regional conditions specific to the needs of a particular region. This New England Regional Permit will supersede the Connecticut Programmatic General Permit (CT GP).

More information on the proposal to issue the New England General Permit can be found on the U.S. Army Corps of Engineers - New England District website at: <http://www.nae.usace.army.mil/Missions/Regulatory/StateGeneralPermits/NewEnglandGeneralPermit.aspx> or by contacting the New England District, Corps of Engineers at: 696 Virginia Road, Concord, MA 01742-2751.
