PUBLIC NOTICE

Department of State

F-2016-0092 (DA)

Date of Issuance – February 24, 2016

The New York State Department of State (DOS) is required by Federal regulations to provide timely public notice for the activities

described below, which are subject to the consistency provisions of the Federal Coastal Zone Management Act of 1972, as amended.

The U.S. Army Corps of Engineers - New York District (ACOE) has determined that the proposed activity will be undertaken in a manner consistent to the maximum extent practicable with the enforceable policies of the New York State Coastal Management Program. The applicant's consistency determination and accompanying supporting information and data are available for inspection at the New York State Department of State offices located at One Commerce Plaza, 99 Washington Avenue in Albany, New York.

In F-2016-0092 (DA), the ACOE is proposing a flood risk management project along 1.82 miles of the Mamaroneck and Sheldrake Rivers in the Village of Mamaroneck, Westchester County, New York. The proposed project was authorized by Section 401(a) of the Water Resources Development Act of 1986 and includes channel modifications, retaining walls, bridge removal and replacement, a culvert, trapezoidal cuts along the rivers, and nonstructural measures applied to a maximum of eight residences and structural measures for one non-residential building. According to the information submitted to DOS, the proposed activities consist of the following:

The proposed channel work on the Mamaroneck River will be approximately 2,400 ft on the segment of the Mamaroneck River south of I-95 and upstream of the confluence with the Sheldrake River and the segment stretching from south of the confluence to just downstream of the Tompkins Avenue Bridge also approximately 2,400 ft. For both segments the river channel will be deepened and widened to 1:2.5 side slopes and the channel bottom will be widened to 45 ft with 0.25% slope. Retaining walls and utilities will be removed and replaced as needed including the removal and replacement of the Ward Avenue Bridge.

Along the Sheldrake River the proposed channel work will be approximately 3,470 ft from Fenimore Road to the confluence in Columbus Park. The river channel will be deepened and widened to 33 ft and 3.4 ft cut with 0.25% slope. Also proposed is rectangular channel modification upstream of the Mamaroneck Avenue Bridge. Retaining walls and utilities will be removed and replaced as needed including the removal/replacement of the Waverly Avenue Bridge. Three footbridges will be removed but not replaced including the Center Avenue footbridge and two footbridges in Columbus Park.

The proposed culvert will be a box culvert under the commuter parking lot located on the left bank of the Mamaroneck River just downstream of the Jefferson Avenue Bridge and will discharge almost directly into the Rail Road Bridge opening. The culvert is proposed to be 390 ft long with a slope of 0.36 ft per 100 ft, 25 ft wide, 8 ft high, and will be about 3 ft above the proposed bottom of the river and about 3.5 ft under the finish grade of the parking lot. The purpose of the proposed culvert is to divert a portion of the Mamaroneck River flow during a one year event or greater.

The proposed retaining walls will be approximately 1,200 lf of riprap along the Mamaroneck and Sheldrake Rivers. About 500 ft of riprap will be located roughly 200 ft both upstream and downstream of the N. Barry Ave. Extension Bridge along the Mamaroneck River and 700 ft of riprap at the 90 degree turn in the Sheldrake River located downstream of the Fenimore Rd. Bridge. Additionally, 300 lf of concrete is proposed for placement along the bottom of the Mamaroneck River downstream from the Station Plaza Bridge to just downstream of Halstead Ave.

The proposed nonstructural measures consist of eight residential properties in the Harbor Heights neighborhood south of the Mamaroneck River as candidates for structure elevation or raising. Additionally, structural measures are considered for one non-residential property in the industrial area along Fenimore Road and south of the Sheldrake River as a candidate for construction of a ringwall.

Any interested parties and/or agencies desiring to express their views concerning the above proposed activities may do so by filing their comments, in writing, no later than 4:30 p.m., 30 days from the date of publication of this notice, or, March 25, 2016.

Comments should be addressed to the New York State Department of State, ATTN: Consistency Review Unit, One Commerce Plaza, 99 Washington Avenue, Suite 1010, Albany, New York 12231. Tele-

phone (518) 474-6000; Fax (518) 474-6572. Comments can also be submitted electronically via email at: CR@dos.ny.gov.

This notice is promulgated in accordance with Title 15, Code of Federal Regulations, Part 930.

PUBLIC NOTICE

F-2016-0114 (DA)

Date of Issuance – February 24, 2016

The New York State Department of State (DOS) is required by Federal regulations to provide timely public notice for the activities described below, which are subject to the consistency provisions of the Federal Coastal Zone Management Act of 1972, as amended.

The U.S. Army Corps of Engineers - New York District (ACOE) has determined that the proposed activity will be undertaken in a manner consistent to the maximum extent practicable with the enforceable policies of the New York State Coastal Management Program. The applicant's consistency determination and accompanying supporting information and data are available for inspection at the New York State Department of State offices located at One Commerce Plaza, 99 Washington Avenue in Albany, New York.

In F-2016-0114 (DA), the ACOE is proposing maintenance dredging of the East Rockaway Inlet Federal Navigation Channel located between Far Rockaway in Queens County and Atlantic Beach in Nassau County. The purpose of the proposed maintenance dredging is to alleviate the effects of shoaling and maintain the authorized project dimensions.

According to the information submitted to DOS, the proposed activity consists of dredging areas of the Federal Navigation Channel and deposition basins in East Rockaway Inlet to a depth of 14 feet plus 2 feet allowable overdepth using a mechanical dredge or similar plant. The resulting approximately 250,000 cy of dredged material is proposed to be placed along the Rockaway Beach shoreline located in Queens County, NY as beach nourishment. The proposed dredging would occur in fall/winter 2016/2017.

Any interested parties and/or agencies desiring to express their views concerning the above proposed activities may do so by filing their comments, in writing, no later than 4:30 p.m., 30 days from the date of publication of this notice, or, March 25, 2016.

Department of State
Notice of Routine Program Change
New York City

Local Waterfront Revitalization Program Amendment

PURSUANT to 15 CFR 923.84(b), the New York State Department of State (DOS) has submitted a routine program change to the federal Office for Coastal Management (OCM). The change to the New York State Coastal Management Program (CMP) covered by this request is the incorporation of an amendment to the New York City Local Waterfront Revitalization Program into the State's CMP.

A major component of the State's CMP is the provision that local governments be allowed to prepare and amend Local Waterfront Revitalization Programs (LWRP), which further detail and make geographically specific the State's coastal policies. Each LWRP is approved if it demonstrates consistency with the State's CMP and the provisions of the New York State Waterfront Revitalization of Coastal Areas and Inland Waterways Act, or Article 42 of the NYS Executive Law.

The New York City LWRP amendment serves as a long-term

coastal management program for the City's waterfront resources along the New York Harbor, the Hudson, Bronx, Harlem and East Rivers, the Arthur Kill and Kill Van Kull and all their many tributaries, and the Atlantic Ocean.

This LWRP amendment was prepared in partnership with the New York State Department of State, and serves as an update to the New York City LWRP amendment approved in 2002. This LWRP amendment incorporates and advances the goals of Vision 2020: New York City Comprehensive Waterfront Plan, to encourage the development of maritime industry while ensuring the protection of the environment; promote recreation, both at the shoreline and in the water; provide design principles that consider the effects of climate change and sea level rise; and, foster the preservation and restoration of ecologically significant sites.

Also known as the New Waterfront Revitalization Program (WRP), the New York City LWRP amendment includes a new introduction and a thoroughly revised Part I that contains: a comprehensive program description explaining the regulatory and planning context of the program; a description of the proposed Coastal Zone boundary including modifications based on the interim floodplain and flood hazard areas estimated by FEMA following Superstorm Sandy; a thorough description of the applicable standards and processes for the review of local, State, and federal activities for consistency with the program; and, a discussion of local regulations that are related to the implementation of the program. Part II of the WRP presents modifications to the policies of the approved program. Part III of the WRP includes revised sectional maps delineating the boundaries of New York City's Coastal Zone, as well as maps of the special areas described in the program. And, the appendices of the WRP contain: a descriptive list of State actions and programs which should be undertaken in a manner consistent with the program; a list of federal activities affecting land and water uses and natural resources in the coastal zone of New York State; a list of State and federal agency actions that are necessary for further implementation of this program; local and State regulations related to the implementation of the WRP; and, guidelines for notification and review of State and federal agency actions.

The draft LWRP amendment was circulated by the New York State Department of State to potentially affected State, federal, and regional agencies during a 60-day review period from December 17, 2014 to February 20, 2015. Following this review period, the Department of State coordinated responses to comments received with New York City, and revised the draft LWRP where necessary. The New York City Council approved the amendment to the LWRP on October 30, 2013. The New York City LWRP amendment was approved by the New York State Secretary of State on February 3, 2016, pursuant to the New York State Waterfront Revitalization of Coastal Areas and Inland Waterways Act (NYS Executive Law, Article 42).

The amended New York City Local Waterfront Revitalization Program is available online, at http://www.dos.ny.gov/opd/programs/WFRevitalization/LWRP__status.html

Any comments on whether or not the action constitutes a routine program change to the State's approved Coastal Management Program should be submitted by March 18, 2016 to: Joelle Gore, Office for Coastal Management, National Oceanic and Atmospheric Administration, 1305 East-West Highway, Silver Spring, MD 20910.

Further information on this routine program change may be obtained from: Renee Parsons, Office of Planning and Development, Department of State, 99 Washington Ave., Suite 1010, Albany, NY 12231-0001, (518) 473-2461
