PUBLIC NOTICE Department of State

Administrative Adjudication Plan Biennial Report
for December 1, 2002 to December 1, 2004

[pursuant to Executive Order No. 3 (9 NYCRR Section 5.3)
and Executive Order No. 131 (9 NYCRR Section 4.131)]

December 1, 2004

The Office of Administrative Hearings (OAH) conducts quasi-judicial administrative hearings for 18 of the occupations regulated by the Department of State (DOS). All adjudications are governed by applicable licensing statutes; the State Administrative Procedure Act; Part 400 of Title 19 of the Official Compilation of Codes, Rules and Regulations of the State of New York (NYCRR); Executive Order No. 3 (9 NYCRR Section 5.3) and Executive Order No. 131 (9 NYCRR Section 4.131); and the Administrative Adjudication Plan submitted by the Department in compliance with these Executive Orders.

Provisions of 19 NYCRR Part 400 create the OAH as an independent unit in New York City that is physically separate from the offices of other Department of State divisions that appear as parties in adjudicatory matters before the OAH; govern communications with and discipline of administrative law judges (ALJs); and establish the procedure under which administrative law judges issue final decisions. Effective on July 24, 1996, ALJs were given authority by Part 400 to issue final decisions without prior review or approval by the Secretary of State or his/her designee. These final decisions are appealable to the Secretary of State by any party to a proceeding (applicant, licensee or a division of the Department of State). Judicial review of a decision of

the Secretary of State to the New York State Supreme Court is available under provisions of Article 78 of the CPLR. ALJs report to the Secretary of State or his/her designee.

Attorneys assigned as prosecutors for the Department are located in Albany and report to the General Counsel. Review of the merits of a case and the decision whether to prosecute takes place in a consultative process that involves attorneys and program staff. Prosecuting attorneys and ALJs of the Department of State are forbidden by regulation to engage in ex parte communications about the merits of a matter being adjudicated.

The Department has simplified its procedure for the adjudication of less complex cases. In such cases, non-lawyer supervisory employees represent the Division of Licensing Services before the OAH. Licensees usually represent themselves in this process. This process quickly and fairly disposes of many cases that involve minor violations of the licensing laws.

During the reporting period, the OAH held 2267 hearings and issued 2217 decisions. The decisions in these hearings resulted in twelve Article 78 proceedings. Eight of these proceedings were decided in the Department's favor. The other four proceedings are still pending and have not been decided.

PUBLIC NOTICE

Department of State
F-2004-0863

Date of Issuance - December 22, 2004

The New York State Department of State (DOS) is required by Federal regulations to provide timely public notice for the activities described below, which are subject to the consistency provisions of the Federal Coastal Zone Management Act of 1972, as amended.

The applicant has certified that the proposed activity complies with and will be conducted in a manner consistent with the approved New York State Coastal Management Program. The applicant's consistency certification and accompanying public information and data are available for inspection at the New York State Department of State offices located at 41 State Street in Albany, New York.

In F-2004-0863, the St. Lawrence Cement Company has proposed: the construction and operation of a cement manufacturing facility in a quarry at the company's existing quarry site in the Town of Greenport, Columbia County; the reconstruction of an existing bulkhead, rehabilitation and expansion of an existing dock and the construction of a two-way elevated conveyor system for the movement of material between dock facilities in the City of Hudson, Columbia County and the manufacturing facility in Greenport, dredging the nearshore area in Hudson to accommodate "Hudson Max" vessels, and construction of rock revetments south of the existing bulkhead in Hudson. The company also proposes to create new or restore shallow water habitat in South Bay, south of the proposed facilities in Hudson.

As part of the project, certain of the company's existing cement manufacturing operations would cease in Catskill, Green County. SLC would retain ownership of and continue to rely upon the Catskill site for materials handling and other logistical support for the new Greenport and Hudson facilities. Continued activities at the Catskill site would include some grinding, packaging, storage, and shipping, as well as cement kiln dust (CKD) landfilling when CKD generated at the Greenport facility would not be beneficially reused or recycled. The company would dismantle or otherwise remove several large bunker silos on the Catskill waterfront and a large, deteriorated hopper at the Hudson dock would be dismantled and removed.

Any interested parties and/or agencies desiring to express their

views concerning any of the above proposed activities may do so by filing their comments, in writing, no later than 4:30 p.m., 30 days from the date of publication of this notice, or January 21, 2004. Interested parties who have already submitted comments are advised that those comments will be included in the Department's review of the proposed activities.

Comments should be addressed to the Division of Coastal Resources and Waterfront Revitalization, New York State Department of State, 41 State Street, Albany, New York 12231. Telephone (518) 474-6000; Fax (518) 473-2464.

This notice is promulgated in accordance with Title 15, Code of Federal Regulations, Part 930.
