## PUBLIC NOTICE Department of Labor

Workforce Investment Act Statewide Rapid Response Vendor List, RFA # 29-L

Eligible organizations could include, but are not necessarily limited to, private companies (for-profit and not-for-profit), organized labor unions and individuals. Applicants eligible to apply under this request for applications (rfa) must demonstrate that their core mission is employment and training with a focus on providing job placement and retention services.

Applications will be accepted through June 30, 2005, 4:00 PM, for the Workforce Investment Act (WIA) Statewide Rapid Response Vendor List. Applications are being solicited from entities that have the ability to provide services that promote attachment to the labor force as a part of a statewide system for Rapid Response Services under Title I of the WIA Dislocated Worker program. Specifically, the Department of Labor seeks to establish a vendor list of employment and training organizations with demonstrated capacity to place dislocated workers in employment at comparable wages including the provision of stand-alone reemployment workshops, if necessary. Stand-alone workshops will include individual skill assessment, job search using on-line/technological resources, interviewing skills, dealing with change and pre-employment test preparation.

Rapid Response, a required activity under WIA, is designed to respond to plant closures, mass layoffs, disasters resulting in significant job dislocations, and other events that may substantially increase the number of unemployed individuals. A Regional /Local Rapid Response team of core staff (layoff aversion specialists, career counselors, case managers, job placement specialists) delivers rapid response activities that are driven by the needs of the affected business and employees. There are instances of massive layoffs or plant closures when the Rapid Response team cannot fully meet the needs of the affected workforce; therefore contingency providers for job placement and reemployment activities will be identified through this RFA.

Through this RFA process, the Department will identify qualified vendors capable of providing Rapid Response services within a short

timeframe (usually one to two weeks). Approved vendors may be placed on the Statewide Rapid Response Vendor list. Placement on the list established as the result of this RFA does not guarantee that a successful bidder will be selected to perform any work associated with this project. Rapid Response services include, but are not limited to job search assistance, job development, the provision of labor market information, and workshops designed to aid the affected workers. Provision of these "just in time" services within the rapid response timeframe may include hours of service beyond the 9-5 workday to meet the needs of the often still-employed affected worker group. In addition, applicants must demonstrate flexibility and experience in addressing a wide range of displacement circumstances.

Applicants may elect to submit qualifications to provide job placement only or job placement and stand-alone workshops. Applications that seek to only provide stand-alone workshops will not be considered. Applicants may choose to provide services throughout the state or only in specific areas of the state, and will be required to define in their applications the geographic area(s) that they are willing and able to serve.
