All proposals must be submitted in writing not later than 30 days from the date of publication in the New York State Register.

## PUBLIC NOTICE

Department of State  
F-2007-0261(DA)

Date of Issuance - April 11, 2007

The New York State Department of State (DOS) is required by Federal regulations to provide timely public notice for the activities described below, which are subject to the consistency provisions of the Federal Coastal Zone Management Act of 1972, as amended.

The applicant has certified that the proposed activity complies with and will be conducted in a manner consistent with the approved New York State Coastal Management Program. The applicant's consistency certification and accompanying public information and data are available for inspection at the New York State Department of State offices located at 41 State Street in Albany, New York.

In F-2007-0261(DA), the National Oceanic and Atmospheric Administration's National Marine Fisheries Service is proposing actions and alternatives to update the Marine Mammal Health and Stranding Response Program. The Region of Influence (ROI) for the proposed actions and alternatives includes all areas where MMHSRP activities may occur. The ROI is geographically defined as the coastal zone and marine waters of the U.S., including the Exclusive Economic Zone. The coastal zone includes coastal waters, adjacent shorelands, intertidal areas, salt marshes, wetlands, and beaches.

Congress passed the Marine Mammal Health and Stranding Response Act (MMHSRA) in 1992. Under the MMHSRA, the Marine Mammal Health and Stranding Response Program (MMHSRP) was formalized with the passage of Title IV, an amendment to the Marine Mammal Protection Act (MMPA). This Act charged the Secretary of Commerce to develop a marine mammal health and stranding response program. The current MMHSRP includes the following components:

- National Marine Mammal Stranding Network
- Marine Mammal Unusual Mortality Event Program
- National Marine Mammal Tissue Bank and Quality Assurance Program
- Marine Mammal Health Biomonitoring, Research, and Development
- Marine Mammal Disentanglement Network
- John H. Prescott Marine Mammal Rescue Assistance Grant Program (a.k.a. the Prescott Grant Program)
- Information Management and Dissemination.

The MMHSRP has identified several needs for effectively responding to marine mammals in distress, including those stranded, entangled, and out of habitat, and to answer research and management questions about marine mammal health as mandated in Title IV. To meet the purpose and need, the MMHSRP developed the following four proposed actions:

1. Issuance of the Policies and Best Practices for Marine Mammal Stranding Response, Rehabilitation, and Release (a.k.a. Policies and Best Practices) as final guidance.
2. Issuance of a new Endangered Species Act/MMPA permit to the MMHSRP. The new permit would include current and future response activities for endangered species, disentanglement activities, biomonitoring projects, and import and export of marine mammal tissue samples.
3. Continuation of current MMHSRP operations, including response, rehabilitation, release, and research activities, with renewal and authorization of SAs and Scientific Research Authorizations and other National Marine Fisheries Service activities.
4. Continuation of the Prescott Grant Program.

Any interested parties and/or agencies desiring to express their views concerning the above proposed activity may do so by filing their comments, in writing, no later than 4:30 p.m., 30 days from the date of publication of this notice, or, May 11, 2007.

Comments should be addressed to the Division of Coastal Resources and Waterfront Revitalization, New York State Department of State, 41 State Street, Albany, New York 12231. Telephone (518) 474-6000; Fax (518) 473-2464.

This notice is promulgated in accordance with Title 15, Code of Federal Regulations, Part 930.

## PUBLIC NOTICE

### Uniform Code Regional Boards of Review

Pursuant to 19 NYCRR 1205, the petitions below have been received by the Department of State for action by the Uniform Code Regional Boards of Review. Unless otherwise indicated, they involve requests for relief from provisions of the New York State Uniform Fire Prevention and Building Code. Persons wishing to review any petitions, provide comments, or receive actual notices of any subsequent proceeding may contact Roy Scott, Codes Division, Department of State, 41 State Street, Albany, NY 12231, (518) 474-4073 to make appropriate arrangements.

2007-0039 Matter of Sal Furnari, PO Box 87, Richfield Springs, NY 13439 for a variance concerning fire-safety requirements including those for sprinkler systems.

Involved is new construction of R-1 (residential, 15 seasonal cabins) occupancies each of type VB-unprotected frame construction, one story in height and approximately 681 square feet in gross floor area. They will be located in "Hartwick Pines Village" which is located on the west side of New York State Highway approximately 500 feet south of the intersection with Seminary Road, Town of Hartwick, County of Otsego, State of New York.
