Released CHILD SUPPORT STANDARDS CHART
 [April 1, 2007] April 1, 2008 PREPARED BY
 NEW YORK STATE OFFICE OF TEMPORARY AND DISABILITY ASSISTANCE,
 DIVISION OF CHILD SUPPORT ENFORCEMENT

The tables provided as part of the Child Support Standards Chart should be used to determine the annual child

support obligation amount. The current poverty income guidelines amount for a single person and the self-support reserve as reported by the United States Department of Health and Human Services are set forth in the "Definitions" in subdivision (a) of this section.

How to use the Chart:

1. Locate the "Income Range" you are looking for in the upper right hand corner of each page.
2. Locate the row labeled "Annual Income" on one of the tables of that page.
3. Go across the top of the table to the column corresponding to the "Number of Children" for whom support is sought.
4. The dollar amount listed where the "Annual Income" row and the "Number of Children" column meet is the amount of the basic child support obligation, where additional amounts are not applicable for the child care, health care and education for the children for whom support is sought.
5. Where additional amounts for child care, health care and/or educational expenses are appropriate, see the worksheet.

Please note: Where the total income of both parents exceeds \$80,000, the law permits, but does not require, the use of the Child Support Percentages in calculating the annual child support obligation amount on the income above \$80,000.
