PUBLIC NOTICE

Department of Health

Pursuant to 42 CFR Section 447.205, the Department of Health hereby gives public notice of the following:

The Department of Health proposes to amend the Title XIX (Medicaid) State Plan for hospital services to comply with recently enacted statutory provisions. The following significant changes are proposed:

Indigent Care

- Effective for the period May 1, 2009 through December 31, 2009, distributions to hospitals for indigent care pool disproportionate share (DSH) payments will be made as follows:

- 90% of \$27 million in funds available for the 2009 calendar year will be reserved and distributed to each eligible facility in an amount related to such facility's reduced distribution from the non-supplemental portion of the professional education pool, in the same proportional amounts received by such facilities in 2008.

- \$307 million will be distributed to hospitals designated as teaching hospitals by the Department as of December 31, 2008, to compensate such facilities for Medicaid and self pay losses. Such distributions will be made according to a schedule of payments to be provided in regulations promulgated by the Commissioner of Health.

- \$16 million will be proportionately distributed to non-teaching hospitals based on each eligible facility's uninsured losses to such losses for all non-teaching hospitals statewide.

- \$25 million will be distributed to hospitals, excluding major public hospitals, having Medicaid discharges of 40% or greater as determined from data reported in the 2007 Institutional Cost Report (ICR), to compensate such facilities for projected Medicaid net losses as determined by the Commissioner. Such distributions will be made according to a schedule of payments to be provided in regulations promulgated by the Commissioner.

- Effective for annual periods beginning January 1, 2010, distributions to hospitals for indigent care pool DSH payments will be made as follows:

- \$269.5 million will be distributed to hospitals, excluding major public hospitals, on a regional basis and within the amounts available for each region, to compensate each eligible hospital's proportional regional share of unmet need for calendar year 2007.

- \$25 million will be distributed to hospitals, excluding major public hospitals, having Medicaid discharges of 40% or greater as determined from data reported in the 2007 ICR. The distributions will be proportionately distributed based on each eligible facility's uninsured losses to such losses of all the eligible facilities.

- \$16 million will be proportionately distributed to non-teaching hospitals based on each eligible facility's uninsured losses to such losses for all non-teaching hospitals statewide.

An additional \$25 million will be distributed to hospitals, excluding major public hospitals, having Medicaid discharges of 40% or greater as determined from data reported in the 2007 ICR, to compensate such facilities for Medicaid net losses as determined by the Commissioner. Such distributions will be made according to a schedule of payments provided in regulations promulgated by the Commissioner.

- Effective for the periods May 1, 2009 and thereafter, for determining distributions to general hospitals for uninsured losses, each facility's uncompensated care need amount will be determined as follows:

- Inpatient units of services for all uninsured patients, excluding referred ambulatory as reported for the calendar year two years prior to the distribution year will be multiplied by the applicable Medicaid inpatient rate for such year (excluding prospective rate adjustments and add-ons). However, for distributions on and after January 1, 2010, the uncompensated care need amount will be determined using the Medicaid inpatient rate in effect for July 1 of the prior year.

Outpatient units of services, including emergency departments and ambulatory surgery services but excluding referred ambulatory, for all uninsured patients as reported for the calendar year two years prior to the distribution year, will be multiplied by the Medicaid outpatient rates as determined using the ambulatory patient group (APG) methodology, or the applicable Medicaid outpatient rate effective two years prior to the distribution year for services not paid for through the APG.

- Distributions made based on uninsured losses will be from the following funds:

- o \$16 million to non-teaching hospitals for May 1, 2009 and annual periods thereafter;

- o \$269.5 million to hospitals, excluding major public hospitals, for January 1, 2010 and annual periods thereafter; and

- o \$25 million to hospitals, excluding major public hospitals, for January 1, 2010 and annual periods thereafter.

- Effective for the periods on and after January 1, 2010, each facility's uncompensated care need amount will be reduced by all payments collected from uninsured patients.

- The total uncompensated care need for all hospitals for all periods will be adjusted by application of the ongoing nominal need scale.

The increase in gross Medicaid expenditures attributable to these proposed initiatives for state fiscal year 2009/2010 is \$307 million.

Copies of the proposed state plan amendments will be on file in each local (county) social services district and available for public review.

PUBLIC NOTICE
Department of Health

Pursuant to 42 CFR 447.205, the Department of Health (Department) hereby gives public notice of the following:

The Department of Health proposes to amend the Title XIX (Medicaid) State Plan with respect to the provision of targeted case management services in accordance with the Deficit Reduction Act of 2005 and regulations promulgated by the Centers for Medicaid and Medicare Services (CMS). The following changes are proposed:

Non-Institutional Services

- Case management services include assessment, development of a plan of care, referral to needed services, and monitoring. The proposed amendment will ensure that targeted case management services are provided in accordance with the statutory definition of case management adopted in the Deficit Reduction Act of 2005.

- The proposed amendment addresses targeted case management services provided through the Nurse Family Partnership (NFP) program in New York City and Monroe County. The NFP program is an evidence-based home visiting program which focuses on a target group of low-income, high risk, pregnant women who will be first-time mothers and their newborn up to the child's second birthday.

The estimated annual net aggregate increase in gross Medicaid expenditures attributable to this proposed initiative for State fiscal year 2009/2010 is cost of this program is \$6 million.

PUBLIC NOTICE

Department of Health

Pursuant to 42 CFR Section 447.205, the Department of Health hereby gives public notice of the following:

The Department of Health proposes to amend the Title XIX (Medicaid) State Plan for long term care services to comply with recently enacted statutory provisions. The following significant changes are proposed:

Long Term Care Services:

- Effective for periods May 1, 2009 through March 31, 2010, regarding inpatient rates of payment for RHCs which reflect the benefit of the rebase to 2002 costs, if it is determined by the Commissioners of Health and the Division of the Budget that such adjustment results in an aggregate increase in the rates for such period that is less than or more than \$210 million, proportional adjustments to the rates will be made as necessary to result in an increase in aggregate expenditures of \$210 million. The operating component of such rates will not be subject to case mix adjustments as otherwise scheduled for January of 2010.

- For the period April 1, 2010 through March 31, 2011, upon determination by the Commissioner and the Director of the Budget, rate adjustments to inpatient rates of payments for RHCs, prior to the adjustment for inflation, will result in an aggregate increase in total Medicaid rates of payments for such services, make such proportional adjustments to such rates as necessary to reduce such total aggregate rate adjustments such that the aggregate total reflects no such increase. Adjustments made shall not be subject to subsequent correction or reconciliation.

The estimated annual net aggregate increase in gross Medicaid expenditures attributable to this proposed initiative for state fiscal year 2009/2010 is \$210 million.

Copies of the proposed state plan amendment will be on file in each local (county) social services district and available for public review.
