PUBLIC NOTICE Department of Health

Pursuant to 42 CFR Section 447.205, the Department of Health hereby gives public notice of the following:

The Department of Health proposes to amend the Title XIX (Medicaid) State Plan for hospital services to comply with recently enacted statutory provisions. The following is proposed:

Inpatient Hospital Services

Effective for the periods on and after December 1, 2009, if the Commissioner of Health determines that federal financial participation will not be available for funds to facilitate improvements in operations and finance for non-public general hospitals with a Medicaid percentage of 2007 discharges which is equal to or greater than 17.5%, the methodology for allocation of such funds will be changed. In lieu of a formula based distribution in which an eligible hospital's reduction in Medicaid inpatient revenue as the result of authorized inpatient rate rebasing and adjustments exceeds a percentage as determined by the Commissioner, the Commissioner may alternatively allocate funds proportionally, based on each eligible hospital's relative share of Medicaid inpatient discharges for the year two years prior to the rate year. The funds will continue to be paid as additional adjustments to the inpatient rates for the eligible hospitals.

As the result of this proposed change in allocation methodology, there is no change in the gross Medicaid expenditures from the previously accounted for expenditures related to this initiative for state fiscal year 2009/2010.

Copies of the proposed state plan amendments will be on file in each local (county) social services district and available for public review.

For the New York City district, copies will be available at the following places:

The Department of Health proposes to amend the Title XIX (Medicaid) State Plan for inpatient hospital, long term care and non-institutional services to comply with recently enacted statutory provisions. The following significant changes are proposed:

Inpatient Hospital Services

Effective immediately, case based rates of payment for non-public, not-for-profit general hospitals which have not published an ancillary charges schedule will have their inlier payments increased by an amount equal to the statewide average of cost outlier payments for comparable hospitals or by a methodology that uses a statewide or regional ratio of cost to charges applied to statewide or regional comparable charges for those cases determined by the Commissioner.

As the result of this proposed change in allocation methodology, the maximum amount of additional Medicaid expenditures for state fiscal year 2009/2010 would be \$3.5 million.
