PUBLIC NOTICE
Office of General Services

The New York State Office of General Services is posting for comments the revised Guidelines and Specifications for the Procurement and Use of Environmentally Sensitive Cleaning and Maintenance Products for all Public and Non Public Elementary and Secondary Schools in New York State and for the Procurement and Use of Environmentally Preferred Cleaning Products for State Agencies/Public Authorities in New York State (“Guidelines”).

The Guidelines were recently revised by the New York State Office of General Services in consultation with representatives of the New York State Department of Environmental Conservation, Department of Health, Department of Labor and State Education Department.

The Guidelines were initially developed with the recognition and understanding that they would act as a catalyst for study, advancement of knowledge and changes in products and their availability. The Office of General Services (OGS) is responsible for amending the Guidelines and criteria from time to time to reflect higher standards for environmentally-sensitive cleaning and maintenance products and environmentally preferred cleaning products as the marketplace responds by providing such products. Green Seal, Inc. recently revised its GS-37 standard and those revisions will take effect on November 30, 2009. Such revisions form the basis for the revised draft Guidelines.

OGS has developed a list of selected cleaning and maintenance products for schools and state agencies/public authorities to purchase and use. The OGS Approved Green Cleaning Products List organizes products in the following six categories: general purpose cleaners; glass cleaners; bathroom cleaners; toilet bowl cleaners; carpet cleaners; and carpet spot removers. The revised draft Guidelines require that each product meet one of three criteria: 1) Green Seal, Inc. certification under revised GS-37; 2) EcoLogo certification; or 3) Self certification (affirming that the product meets or exceeds Green Seal, Inc. or EcoLogo standards). Additionally, the Guidelines continue to include cleaning products that were not impacted by the revised GS-37 standard, such as floor finishes, floor finish strippers, hand cleaners/hand soaps and vacuum cleaners.

The complete text of the Guidelines and accompanying appendices are located at: <https://greencleaning.ny.gov/DraftGuidelines.asp>

The following draft documents/forms are offered for comment:

1) Guidelines and specifications for the procurement and use of environmentally sensitive cleaning and maintenance products for all public and nonpublic elementary and secondary schools in New York State and for the procurement and use of environmentally preferred cleaning products for state agencies/public authorities in New York State

2) Appendix I - Affidavit of compliance for inclusion on the OGS approved products list

3) Appendix II - Vacuum cleaners (*CRI Green Label Standard/Testing Protocols)

4) Appendix III - Customer’s/Business’ Certification that manufacturer’s floor finish product(s) meet NYS OGS’s required standards*

5) Appendix IV - Customer’s/Business’ Certification that Manufacturer’s Floor Finish Stripper Product(s) Meet NYS OGS’s Required Standards*

Comments must be received by November 20, 2009 and will be considered with respect to issuance of the final Guidelines.

Any electronic comments on this section of the guidelines should be sent to nysogsesu@ogs.state.ny.us

Written comments on this section of the guidelines should be sent to: New York State Office of General Services, Empire State Plaza -Corning Tower, Environmental Services Unit – 39th Floor, Albany, New York 12242

PUBLIC NOTICE

Office of Mental Retardation and Developmental Disabilities
Department of Health

Pursuant to 42 CFR 447.205, the NYS Office of Mental Retardation and Developmental Disabilities and NYS Department of Health hereby give notice of the following:

Effective November 1, 2009 OMRDD will be revising its regulations to implement health care adjustments applicable to Medicaid payments for Residential Habilitation, Day Habilitation, Supported Employment, Prevocational Services, Respite, Community Residences, Article 16 Clinics, ICF/DDs, and Day Treatment. Plan of Care Support Services and Family Education and Training will also benefit from this funding initiative. The proposed amendments will increase reimbursement of providers of the referenced programs and services so as to enable them to enhance employee health care related benefits and/or to help their employees defray the ever increasing costs of health care.

The adjustments will take the form of a percentage applied to the allowable operating costs of the specific program or service. OMRDD has determined a benchmark of health care coverage and has identified provider agencies that meet or exceed the benchmark criteria. In recognition of health care costs being incurred and to serve as a model toward which all providers should strive, providers which offer coverage at or above the benchmark will receive for each adjustment either a 3.0 percent increase to their allowable operating costs per trended program or a 1.0 percent increase to their allowable operating costs per all covered programs. Providers not in this category may apply to OMRDD to receive funding equivalent to 1.0 percent of their allowable operating costs per covered program for each adjustment. The application must specify the intended use of the funds from among the required and approved uses. Approved applicants shall be required to use these funds to offset health care premium increases. Remaining funds shall be used to establish health care related benefits or to reduce employee out-of-pocket health care related expenses. Providers must assure board authorization and agree to maintain records to substantiate distribution of these funds consistent with their applications. Funds are subject to audit to assure compliance with these regulations.

Health Care Adjustments IV and V contain catch-up provisions to recognize costs incurred prior to November 1, 2009.

In an effort toward simplification, the five sequential Health Care funding increments will be consolidated into one Health Care Adjustment on January 1, 2010 and will either be incorporated into fees or be expressed as a single line item in the price or rate components. Fees for plan of care support services, at home residential habilitation, supported employment, family education and training, and the operating portion of clinic fees are automatically increased for health care adjustments.

The implementation of these Health Care Adjustments will result in an annual aggregate increase of approximately \$61.3 million in reimbursements to affected providers of developmental disabilities services. This approximate \$61.3 million cost in Medicaid will be evenly shared by the State (approximately \$30.65 million) and the federal (approximately \$30.65 million) governments.

Copies of the proposed changes are on file in each local (county) social services district and are available for public review. For the New York City district, copies are available at the following locations:
