Clean Water State Revolving Fund (CWSRF) for Water Pollution Control Additional Funding Availability; Additional Subsidization; Fund Adjustments; and Amended Annual Project Priority List

The New York State Environmental Facilities Corporation (EFC) and the Department of Environmental Conservation (DEC) announce that the Federal Fiscal Year (FFY) 2010 Intended Use Plan (IUP) for the Clean Water State Revolving Fund (CWSRF) for Water Pollution Control Projects is being amended.

Amendment No. 1 reflects the policies and procedures for the administration of portions of New York State's FFY 2010 CWSRF appropriation to be used for additional subsidization, and presents the criteria for selection of projects to receive these funds. The amendment also reflects the availability of an additional \$15 million in resources from the FFY 2009 IUP and an additional \$25 million in capital released from long term investments back to the CWSRF program. These funds will be available to finance projects during the FFY 2010 IUP financing period.

The amendment will set deadlines for submission of financing applications for projects on the 2010 IUP Annual List. Please see the amendment for details.

The Draft Amendment No. 1 will be available on the EFC web site at www.nysefc.org (click on "Programs", then "Clean Water State Revolving Fund", then "IUP and Amendments").
