Box 189, Waterford, New York 12188-0189, no later than Monday, June 21 or may be submitted in person at the meeting by contacting Ruth L. Pierpont at the same address no later than Monday, June 21.

For further information, contact: Ruth L. Pierpont, Director, Historic Preservation Field Services Bureau, Office of Parks, Recreation and Historic Preservation, Peebles Island, P.O. Box 189, Waterford, NY 12188-0189, (518) 237-8643

PUBLIC NOTICE

Department of State
F-2010-0254 (DA)

Date of Issuance - May 19, 2010

The New York State Department of State (DOS) is required by Federal law to provide timely public notice for the activity described below, which is subject to the consistency provisions of the Federal Coastal Zone Management Act of 1972, as amended.

The United States Department of Homeland Security, United States Coast Guard, has determined that the proposed activity complies with and will be conducted in a manner consistent to the maximum extent practicable with the approved New York State Coastal Management Program. The consistency determination, Notice of Proposed Rule-making and Draft Programmatic Environmental Impact Statement (DPEIS) are available for inspection at the New York State Department of State offices located at One Commerce Plaza, 99 Washington Avenue in Albany, New York.

In F-2010-0254 (DA), the U.S. Coast Guard (USCG) has submitted a consistency determination for the proposed regulatory action to establish a nationwide ballast water discharge standard which vessel owners would comply with to prevent or reduce the introduction and spread of nonindigenous species in U.S. waters. The USCG is pursuing its mandate under the National Invasive Species Act of 1996 (Pub. L. 104-332).

The USCG has stated within their submission that the proposed rule would establish standards for the allowable concentration of living organisms in ships' ballast water discharged in U.S. waters; establish an approval process for ballast water management systems; and reduce and prevent the introduction and spread of nonindigenous species from ships discharging ballast water in U.S. waters.

The proposed rule includes a phase-in schedule for complying with both the phase one and the phase two proposed ballast water discharge standards (BWDS), based on each vessel's ballast water capacity and build date. The USCG has analyzed 5 alternatives as a basis for these standards. Alternative 1 is the no action alternative; Alternative 2 (the USCG proposed phase one standard and the preferred alternative) sets limits for concentrations of organisms per 100 milliliters (mL) of ballast water; Alternative 3 is 10 times more stringent than Alternative 2; Alternative 4 is 100 times more stringent than Alternative 2 and is equivalent to the NYS water quality certification for existing vessels that is part of the USEPA Vessel General Permit (VGP), and Alternative 5 is essentially the sterilization of ballast water. As noted, the USCG proposed phase one standard corresponds to Alternative 2; it also corresponds to the International Maritime Organization (IMO) standard that some countries have adopted. The USCG phase 2 standard does not correspond to any of the analyzed alternatives but falls between Alternatives 4 and 5. It is 1000 times more stringent than Alternative 2 and is approximately equivalent to the NYS water quality certification for new vessels that is part of the USEPA Vessel General Permit (VGP).

More information regarding the USCG's Proposed Rule and the supporting DPEIS can be found at: www.regulations.gov, docket ID USCG-2001-10486.

Any interested parties and/or agencies desiring to express their views concerning the above proposed activity may do so by filing their comments, in writing, no later than 4:30 p.m., 10 days from the date of publication of this notice, or May 29, 2010.

Comments should be addressed to the Office of Coastal, Local Government and Community Sustainability, New York State Department of State, One Commerce Plaza, Albany, New York 12231. Telephone (518) 474-6000; Fax (518) 473-2464.

This notice is promulgated in accordance with Section 306(d)(14) of the Federal Coastal Zone Management Act of 1972, as amended.

SALE OF FOREST PRODUCTS

Otsego Reforestation Area No. 7
Contract No. X007830

Pursuant to Section 9-0505 of the Environmental Conservation Law, the Department of Environmental Conservation hereby gives Public Notice for the following:
