### Department of State F-2011-0504 (DA)

Date of Issuance - July 27, 2011

The New York State Department of State (DOS) is required by Federal law to provide timely public notice for the activity described below, which is subject to the consistency provisions of the Federal Coastal Zone Management Act of 1972, as amended.

The United States Department of the Interior, Army Corps of Engineers - New York District (Corps) has determined that the proposed activity complies with and will be conducted in a manner consistent to the maximum extent practicable with the approved New York State Coastal Management Program. The consistency determination and accompanying public information and data is available for inspection at the New York State Department of State offices located at One Commerce Plaza, 99 Washington Avenue in Albany, New York.

In F-2011-0504 (DA), the U.S. Army Corps of Engineers - New York District, is proposing to perform maintenance dredging of the existing federal navigation channels known as the Sandy Hook Channel and the Main Ship Channel within New York Harbor, New York and New Jersey. Approximately 500,000 cubic yards of dredged material would be removed with the placement of the dredged material at the approved Historic Area Remediation Site (HARS).

The Sandy Hook Channel has an authorized depth of 35 feet and generally 800 feet wide, with widening at the junction with the Main Ship Channel, and at the bend between the East Section and the Bayside Section. The Main Ship Channel has an authorized depth of 30 feet, and generally 1,000 feet wide, extends from widening at the junction with the Bayside Section of Sandy Hook Channel, to deep water in the Lower Bay off West Bank Light. The proposed activity is to dredge the critical shoal area located in the Bayside Section of Sandy Hook Channel, as well as the shoaling in the lower portion of Main Ship Channel at its junction with Sandy Hook, and the upper

Main Ship Channel in the vicinity of its junction with Ambrose Channel.

Any interested parties and/or agencies desiring to express their views concerning the above proposed activity may do so by filing their comments, in writing, no later than 4:30 p.m., 15 days from the date of publication of this notice, or August 11, 2011.

## PUBLIC NOTICE

Department of State  
F-2011-0555 (DA)

Date of Issuance - July 27, 2011

The New York State Department of State (DOS) is required by Federal law to provide timely public notice for the activity described below, which is subject to the consistency provisions of the Federal Coastal Zone Management Act of 1972, as amended.

The United States Coast Guard, Department of Homeland Security, has determined that the proposed activity complies with and will be conducted in a manner consistent to the maximum extent practicable with the approved New York State Coastal Management Program. The consistency determination and accompanying public information and data is available for inspection at the New York State Department of State offices located at One Commerce Plaza, 99 Washington Avenue in Albany, New York.

In F-2011-0555 DA, the U.S. Coast Guard, Department of Homeland Security, has submitted a consistency determination to amend their U.S. Army Corps of Engineers permit (COE #NAN-2008-00971-EYO) for maintenance dredging of the entrance channel to the USCG Station Eaton's Neck, Huntington Bay, Town of Huntington, Suffolk County.

The current COE permit authorizes the removal of approximately 8,000 cubic yards of sand annually, to be placed at one of three designated beach nourishment sites landward of the spring high tide (SHW). The placement sites are identified at the following locations: The Eaton's Neck Coast Guard Station property along the shoreline of Long Island Sound, the Town of Huntington owned property known as North Creek along the shoreline of Huntington Bay, and the Town of Huntington owned property located at Essex Drive along the shoreline of Huntington Bay.

The proposed amendment would involve the placement of approximately 4,000 cy of dredged sand below mean high water (MHW) and mean low water (MLW), rather than above SHW, for the purpose of beach nourishment of approximately 235 linear feet of shoreline at the Essex Drive location during March, 2012. Current measurements place MHW at the face of the bulkhead and rip-rap on-site.

Any interested parties and/or agencies desiring to express their views concerning the above proposed activity may do so by filing their comments, in writing, no later than 4:30 p.m., 15 days from the date of publication of this notice, or August 11, 2011.

*Comments should be addressed to:* Department of State, Division of Coastal Resources, One Commerce Plaza, 99 Washington Ave., Suite 1010, Albany, NY 12231, (518) 474-6000, Fax (518) 473-2464

This notice is promulgated in accordance with Section 306(d)(14) of the Federal Coastal Zone Management Act of 1972, as amended.

### Department of Taxation and Finance Tax Law Section 1111 Annual Adjustment Calculation on the Base Retail Price on Cigarettes

Pursuant to the provisions of section 1111(j)(2) of the Tax Law, the Commissioner of Taxation and Finance is required to give public notice of the base retail price adjustment calculation and the resulting base retail price of cigarettes for purposes of establishing the prepaid sales tax on cigarettes imposed by section 1103 of the Tax Law. Section 1111(j) of the Tax Law was amended by Chapter 85 of the Laws of 2002 to provide that the base retail price of cigarettes shall be adjusted each year by a factor based upon the manufacturers' list price for a carton of standard brand cigarettes. The base retail price adjustment factor for the period September 1, 2011, through August 31, 2012, is 1.253. The base retail price adjustment calculation results in a base retail price of cigarettes effective September 1, 2011, as follows:

Package of twenty (20) cigarettes:	\$7.642 x 1.253 = \$9.575
For each additional five (5) cigarettes:	\$1.909 x 1.253 = \$2.392

The base retail price is adjusted annually, to take effect the first day of September.
