PUBLIC NOTICE

Department of State

F-2008-0753 (Comment Period Extended)

Date of Issuance - March 30, 2012

The New York State Department of State (DOS) is required by Federal regulations to provide timely public notice for the activities described below, which are subject to the consistency provisions of the Federal Coastal Zone Management Act of 1972, as amended.

The Department of State provided notice on February 15, 2012 and requested comments be provided by March 01, 2012. On March 01, 2012, DOS extended the comment period and requested comments be provided by March 31, 2012. By this notice, the Department of State is extending the review period and requesting comments be provided by April 20, 2012.

The applicant has certified that the proposed activity complies with and will be conducted in a manner consistent with the federally approved New York State Coastal Management Program. The applicant's consistency certification and accompanying public information and data are available for inspection at the New York State Department of State offices located at One Commerce Plaza, 99 Washington Avenue, in Albany, New York.

In application F-2008-0753, United Water New York, Inc, is proposing the Haverstraw Long Term Water Supply Project (Project) in the Town of Haverstraw, Rockland County. The Project includes

the development and operation of a new water intake, intake pumping station, water treatment and desalination facility, and transmission mains. The proposed facility would withdraw up to 10 million gallons of water per day (MGD) from the Hudson River within Haverstraw Bay through an approximately 900' pipeline, to be installed via micro tunneling, and an intake structure fitted with 0.5 millimeter slot width wedgewire screens with a maximum approach velocity of 0.25 feet per second. The water would then be treated and desalinated via filtration and reverse osmosis and enter United Water's transmission and distribution system. Following onsite pretreatment, the effluent (except a concentrated brine solution) generated by the Project facility would be transported via pipeline to and treated at the Haverstraw Joint Regional Sewage Treatment Plant (HJRSTP). The above referenced concentrated brine solution would then be separately combined with the treated effluent from the HJRSTP and ultimately discharged back to the Hudson River in Haverstraw Bay.

The stated purpose of the proposed action is to "develop an additional sustainable water supply that will increase the safe yield of the [United Water New York] system to meet the growing needs for water in Rockland County over the next 20 years."

Any interested parties and/or agencies desiring to express their views concerning any of the above proposed activities may do so by filing their comments, in writing, no later than 4:30 p.m., April 20, 2012.

Comments should be addressed to: Department of State, Division of Coastal Resources, One Commerce Plaza, 99 Washington Ave., Albany, NY 12231, (518) 474-6000, Fax (518) 473-2464, e-mail: cr@dos.state.ny.us

This notice is promulgated in accordance with Title 15, Code of Federal Regulations, Part 930.
