PUBLIC NOTICE Department of Health

Pursuant to 31 CFR Section 431.408 the Department of Health hereby gives notice of the following:

New York State will request a waiver amendment from the federal government that will allow the state to invest up to \$10 billion in savings generated by the Medicaid Redesign Team (MRT) reforms to implement an action plan to transform the state's health care system. The Medicaid 1115 waiver will enable New York to fully implement the MRT action plan, reinvest in the state's health care infrastructure, and lower costs over the long term. New York State will request that the federal government allow the state to reinvest over a five-year period up to \$10 billion of the \$17.1 billion in federal savings generated by MRT reforms.

Significant federal savings have already been realized through New York's MRT process and substantial savings will also accrue as part of this action plan. The waiver will also allow the state to prepare for implementation of national health care reform as well as effectively bend the cost curve for the state's overall health care system. The MRT action plan and the ACA if implemented in tandem could lead to sweeping changes in health care delivery that will benefit the state's 19 million residents.

New York will pursue an amendment to the state's existing 1115 waiver, the New York Partnership Plan, which has been the primary vehicle used by the state to expand access to managed care. Amending this waiver to facilitate MRT implementation makes sense since the move to "care management for all" is a vital part of the multi-year action plan. The Partnership Plan waiver also has substantial remaining budget neutrality capacity which will be further augmented by the MRT action plan.

The MRT waiver will be restricted to the portion of the Medicaid program controlled by the Department of Health. Specifically excluded from this 1115 waiver are those Medicaid services provided through waivers administered by the Office for People with Developmental Disabilities (OPWDD). The state is currently pursuing a dif-

ferent waiver agreement that will encompass services/waivers that relate to people with developmental disabilities. Both this waiver and the OPWDD waiver are consistent in their approaches to cost containment and in their commitment to improving outcomes. In particular, both waivers will rely on care management as the primary method for driving change and innovation. Due to the complexity of the OPWDD system in New York, the state believes that these two issues should be addressed separately.

The primary way to improve patient outcomes and lower costs is effective care management. The MRT recommended the state phase-out the uncoordinated FFS program and replace it with a new system of care management for all. This will eventually provide fully-integrated managed care for all Medicaid members. It will take New York State between three to five years to fully implement the state's care management vision.

The state's vision for a new MRT waiver is to utilize reinvested federal dollars that will both prepare the state for the Affordable Care Act (ACA) as well as maximize the value of key ACA provisions. In particular, New York's fragile health care safety net must be modernized and primary care access must be expanded in order to prepare for new enrollees. New York's vision for both Medicaid reform and ACA implementation is well summarized by the CMS Triple Aim. Health care reform must be about improving quality, improving health and reducing per capita costs. The MRT waiver will allow New York State to address all three goals in a coordinated fashion while also fulfilling the promise laid out in the ACA.

Areas of focus in the waiver amendment application would include: Primary Care Expansion, Health Home Development, New Care Models, Expand Vital Access Program/Safety Net Provider Program, Public Hospital Innovation: New Models of Care for the Uninsured, Medicaid Supportive Housing Expansion, Managed Long Term Care Preparation Program, Capital Stabilization for Safety Net Hospitals, Hospital Transition, Workforce Training, Public Health Innovation, Regional Health Planning, and MRT and Waiver Implementation Program.

New York is committed to slowing the rate of growth in Medicaid spending and that commitment will ensure that cost neutrality is maintained. The state's budget neutrality argument will be linked to the state's new Medicaid Global Spending Cap which is already working to control cost growth despite sharp enrollment growth.

The public is invited to review and comment on the state's proposed waiver amendment application. Public hearings were scheduled for:

Tuesday, June 12, Syracuse, NY, 1:00 PM – 4:00 PM.

Wednesday, June 13, Buffalo, NY, 1:30 – 4:30 PM.

Monday, June 18, Bronx, NY, 12:30 – 3:30 PM.

Wednesday, June 20, Rennselaer, NY, 1:00 – 4:00 PM.

Details on the waiver amendment proposal, full public notice, and more information on the state's public engagement process including hearings, topic-specific webinars, and other ways to provide comment, are available at the state's MRT waiver website at http://www.health.ny.gov/health_care/medicaid/redesign/mrt_waiver.htm.

Comments (including comments sought through the public engagement process) concerning the state's plan to submit a waiver amendment will be through the above website and at the postal and email ad-

dresses below for a period of thirty (30) days from the date of this notice.

Additionally, the public is invited to sign up for an email list serve which will provide updates throughout the waiver public engagement and application process at http://www.health.ny.gov/health_care/medicaid/redesign/listserv.htm.
