As the Metropolitan Planning Organization, NYMTC will be accepting all applications for these urbanized areas (populations greater than 200,000) on behalf of the designated recipient, New York State Department of Transportation.

Eligible sub recipients to apply for the JARC and New Freedom funding, are municipalities, non-profit agencies, and operators of public transportation services, including private operators of public transportation services, as well as federally recognized tribal governments. Applications were released on March 8th, 2013 with an application deadline of May 3rd 2013.

Such services may include, but are not limited to: mobility management, expansion of current transportation services.

The New Freedom program seeks to reduce barriers to transportation services and expand the transportation mobility options available to people with disabilities beyond the requirements of the Americans with Disabilities Act (ADA) of 1990. Eligible projects may include; expanded service beyond current ADA limitation, projects that fund non-key station improvements and support of mobility management and other mobility supports to improve access to transportation.

Both funding sources require that projects be derived from and identified in the Coordinated Human Service and Public Transportation Plan of the metropolitan region. In addition projects must be coordinated with other federally-assisted programs to ensure efficient use of federal funds. More information on NYMTC and the NYMTC Coordinated Human Service Public Transportation Plan can be found at [www.nymtc.org](http://www.nymtc.org).
