Bidders are warned that time is of the essence of the Contract and completion of the Work must be within 180 days after the Agreement is approved by the Comptroller. Due to the tightness of the construction schedule, bidders should consider the necessity for an increased work force and shift operations.

The only time prospective bidders will be allowed to visit the job site to take field measurements and examine existing conditions of the project area will be at 9:00 a.m. on March 21, 2013 at Chestertown DOT, Route 8, Chestertown, NY. Prospective bidders are urged to visit the site at this time. Prospective bidders or their representatives attending the pre-bid site visit will not be admitted on facility grounds without proper photo identification. Note that parking restrictions and security provisions will apply and all vehicles will be subject to search.

For assistance pertaining to the site visit only, please phone Patrick Szabo (518) 639-4013.

It is the policy of the State and the Office of General Services to encourage minority business enterprise participation in this project by contractors, subcontractors and suppliers, and all bidders are expected to cooperate in implementing this policy.

The Office of General Services reserves the right to reject any or all bids.
