## PUBLIC NOTICE

Department of State  
F-2014-0256 (DA)

Date of Issuance – June 18, 2014

The New York State Department of State (DOS) is required by Federal regulations to provide timely public notice for the activities described below, which are subject to the consistency provisions of the Federal Coastal Zone Management Act of 1972, as amended.

The U.S. Army Corps of Engineers, New England District (Corps) has determined that the proposed activity will be undertaken in a manner consistent to the maximum extent practicable with the enforceable policies of the New York State Coastal Management Program. The applicant's consistency determination and accompanying supporting information and data are available for inspection at the New York State Department of State offices located at One Commerce Plaza, Suite 1010, 99 Washington Avenue in Albany, New York.

The Corps has described the proposal as follows:

The US Army Corps of Engineers, New England District (USACE) proposes to perform maintenance dredging of the Guilford Harbor Federal Navigation Project. The areas that need dredging include the outer entrance channel, the portion of the channel located in Sluice Creek, and the anchorage basin (approximately 53,000 cy of sediment). A mechanical dredge with a clamshell bucket will be used for this project. Since limited upland placement areas are available, it is anticipated that dredged material will be loaded onto a barge and towed to the Central Long Island Sound (CLIS) open water management site, approximately 17 miles away, where the material will be discharged for final disposal.

The Town of Guilford marina has also been impacted by extensive shoaling due to Hurricane Sandy. As such, the town has requested that the Corps of Engineers aide the town by dredging the town marina in conjunction with executing maintenance dredging of the FNP. Approximately 7,700 cy of material will be dredged - however, the Town is responsible for permitting this portion of the project.

Any interested parties and/or agencies desiring to express their views concerning the above proposed activities may do so by filing their comments, in writing, no later than 4:30 p.m., 15 days from the date of publication of this notice, or by Thursday, July 3, 2014.

Comments should be addressed to Department of State, Division of Coastal Resources, Consistency Review Unit, One Commerce Plaza, 99 Washington Ave., Suite 1010, Albany, NY 12231, (518) 474-6000, Fax (518) 473-2464. Electronic submissions can be made at: CR@dos.ny.gov.

This notice is promulgated in accordance with Title 15, Code of Federal Regulations, Part 930.
