## PUBLIC NOTICE

### Department of Health

Pursuant to 42 CFR Section 447.205, the Department of Health hereby gives public notice of the following:

The Department of Health proposes to amend the Title XIX (Medicaid) State Plan for acute inpatient hospital services to comply with proposed regulatory provisions. The following changes are proposed:

#### Institutional Services

- The case based general hospital acute inpatient rebasing rate initiative will be implemented effective for discharges on or after July 1, 2014 with the following updates to the acute rate development:

- The rebased acute rates will reflect an update to the 2005 Institu-

tional Cost Report (ICR), as reported by each facility to the department, which was utilized in the acute rates effective for discharges beginning on December 1, 2009, to the audited 2010 ICR for the operating components of the rates.

- Medicaid costs used in the rate development will be calculated based on a ratio of 2010 total Medicaid acute days (fee-for-service and managed care) to 2010 total acute days.

- The 2011 Medicaid fee-for-service paid claims and Medicaid managed care encounter claims will be used as the divisor for the non-comparable operating cost components of the rate.

- The costs used for the direct medical education (DME) component of the rates will be based on the audited 2010 ICR and only the costs reported for cost center 013 (I&R Services – Salary & Fringes), cost center 033 (I&R Services – Other Program Costs), and cost center 014 (Supervising Physician – Teaching) will be included in the DME cost development for the rates.

- The indirect medical education (IME) percentage will be based on the resident count provided to the Department of Health in the July 2010 IME Survey in addition to the 2010 provider ICR data.

- The ambulance non-comparable cost will be included only for providers stating they provide ambulance services per the 2010 Ambulance Survey completed by providers and submitted to the Department of Health during July, 2013.

- The provider specific wage equalization factor will be calculated using a 3 year average (2008 through 2010 data) of provider specific Medicare occupational-mix adjusted wages and hours in addition to the 2010 provider ICR data to determine the labor share.

- The case mix neutral statewide price and all non-comparable add-on operating cost components of the rate will be adjusted for a budget neutrality factor to equitably reduce all rate payment components to maintain budget neutrality to current expenditures.

- A transition factor will be applied to the case mix neutral statewide price and all non-comparable add-on operating cost components of the rate to limit losses and gains due to the implementation of the audited 2010 cost base and associated policy changes. For the period July 1, 2014 through December 31, 2015, provider specific losses will be limited to 2% of the provider's current expenditures. For the period January 1, 2016 through December 31, 2016, the limitation on losses will be increased to 2.5%. For the period January 1, 2017 through December 31, 2017, the limitation on losses will be increased to 3.5%. To fund the transition floor, 60% of the current estimated expenditures for hospitals that have closed since January 1, 2011 shall be applied. In addition, a cap on gains will be applied as necessary each year in order to achieve budget neutrality. The cap on a provider's gain, for the transition calculation, will be adjusted to exclude the portion of the gain related to an increase in the teaching resident count from 2005 to 2010. The transition factor will not be subject to reconciliation.

- Potentially Preventable Negative Outcomes (PPNO) factor will be calculated based on the PPNO cost reduction included in the April 1, 2014 rate.

- Through the administrative rate appeal process, providers may apply for a rate adjustment for direct and indirect medical education for accepting displaced teaching residents due to the closure of a teaching hospital after the base period.

- The alternate level of care (ALC) rate effective for days of service on July 1, 2014 and thereafter will be updated to reflect the January 1, 2013 skilled nursing home rate and implemented budget neutral on a statewide basis. The downstate region for receiving the downstate ALC rate will be expanded to include Dutchess, Orange and Putnam counties.

- For discharges on or after July 1, 2014, the acute hospital inpatient claims will be processed with the rates as calculated with the provisions above and will use the following:

- 2014 APR DRG grouper (Version 31);

- 2014 Service Intensity Weights (SIWs) and average length of stay;

- 2014 cost outlier thresholds scaled to maintain budget neutrality to estimated outlier payments using the 2013 thresholds.

There is no additional estimated annual change to gross Medicaid expenditures as a result of the proposed amendments.

The public is invited to review and comment on this proposed State Plan Amendment. Copies of which will be available for public review on the Department's website at [http://www.health.ny.gov/regulations/state\\_plans/status](http://www.health.ny.gov/regulations/state_plans/status).

Copies of the proposed State Plan Amendments will be on file in each local (county) social services district and available for public review.

## PUBLIC NOTICE

### New York State and Local Retirement Systems Unclaimed Amounts Payable to Beneficiaries

Pursuant to the Retirement and Social Security Law, the New York State and Local Retirement Systems hereby gives public notice of the amounts payable to beneficiaries.

The State Comptroller, pursuant to Sections 109 (a) and 409 (a) of the Retirement and Social Security Law has received, from the New York State and Local Retirement Systems, a listing of beneficiaries or estates having unclaimed amounts in the Retirement System. A list of the names contained in this notice is on file and open to public inspection at the office of the New York State and Local Retirement Systems located at 110 State St., in the City of Albany, New York.

Set forth below are the names and addresses (last known) of beneficiaries and estates appearing from the records of the New York State and Local Retirement Systems, entitled to the unclaimed benefits.

At the expiration of six months from the date of publication of this list of beneficiaries and estates, unless previously paid to the claimant, the amounts shall be deemed abandoned and placed in the pension accumulation fund to be used for the purpose of said fund.

Any amounts so deemed abandoned and transferred to the pension accumulation fund, may be claimed by the executor or administrator of the estates or beneficiaries so designated to receive such amounts, by filing a claim with the State Comptroller. In the event such claim is properly made, the State Comptroller shall pay over to the estates or to the person or persons making such claim, the amount without interest.
