For further information, please contact: Thomas Pohl, Esq., Office of General Services, Legal Services, 41st Fl., Corning Tower, Empire State Plaza, Albany, NY 12242, (518) 474-8831, (518) 473-4973 (fax)

PUBLIC NOTICE
Department of Health

Pursuant to 42 CFR Section 447.205, the Department of Health hereby gives public notice of the following:

The Department of Health proposes to amend the Title XIX (Medicaid) State Plan for inpatient, long term care, and non-institutional services and prescription drugs to comply with recently proposed statutory provisions. The following significant changes and clarifications are proposed:

All Services

- As previously noticed on March 26, 2014, the uniform reduction by two percent for all non-exempt Medicaid payments will terminate on March 31, 2014. Such notice incorrectly indicated this would result in an annual decrease in gross Medicaid expenditures attributable to the initiative, when the result will actually be an increase in gross Medicaid expenditures of up to \$714 million for state fiscal year 2014/2015.

- To clarify previous notices related to temporary rate adjustments for providers, effective on or after April 1, 2014, the Commissioner of Health may grant approval of a temporary adjustment to the non-capital components of rates, or make temporary lump-sum Medicaid payments, within funds appropriated and subject to the availability of federal financial participation, to eligible general hospitals, skilled nursing facilities, clinics and home care providers.

- Eligible providers shall include providers: undergoing closure; impacted by the closure of other health care providers; subject to mergers, acquisitions, consolidations or restructuring or those impacted by the merger, acquisition, consolidation or restructuring of other health care providers.

- Providers seeking temporary rate adjustments must submit a written proposal to the Commissioner that demonstrates the additional resources provided will achieve one or more of the following:

- Protection or enhancement of access to care;
- Protection or enhancement of quality of care;
- Improvement in the costs effectiveness of the delivery of health care services; or
- Other protections or enhancements to the health care delivery system.

Such proposal will be submitted to the Commissioner at least 60 days prior to the requested effective date of such adjustment, and will include a proposed budget to achieve the goals of the proposal. Any such adjustment issued will be in effect for a specified period of time, not to exceed three years. At the end of the specified timeframe, such payments or adjustments to the non-capital component of rates will cease, and the provider will be reimbursed in accordance with the applicable rate-setting methodology as set forth in the State Plan. The Commissioner may establish benchmarks and goals to be achieved, and may require the facility to submit periodic reports concerning the achievement of such. Failure to achieve such benchmarks and goals shall be a basis for ending the facility's temporary rate adjustment prior to the end of the specified timeframe. General hospitals defined as critical access hospitals, pursuant to Title XVIII of the Federal Social Security Act shall be allocated no less than \$5 million annually.

Institutional Services

- To correct the provision previously noticed on March 26, 2014, for the state fiscal year beginning April 1, 2014 through March 31, 2015, specialty hospital adjustments for hospital inpatient services provided on and after April 1, 2014, to public general hospitals, other than those operated by the State of New York or the State University of New York, located in a city with a population of over one million and receiving reimbursement of up to \$1.08 billion annually will continue. Payments to eligible public general hospitals may be added to rates of payment or made as aggregate payments.

- As previously noticed on March 26, 2014, the Commissioner may make adjustments to inpatient and outpatient Medicaid rates of payment for general hospital services and to the methodology for computing such rates as is necessary to achieve no aggregate, increase or decrease, net growth in overall Medicaid expenditures related to the implementation of the International Classification of Diseases Version 10 (ICD-10) coding system beginning on or about October 1, 2014, as compared to such aggregate expenditures from the period immediately prior to such implementation. However, the State's 2014/2015 budget was enacted prior to the Federal government delaying the implementation of this provision to October 1, 2015. Consistent with the enacted statute, the Commissioner will make the necessary adjustments once ICD-10 goes into effect.

- As previously noticed on March 26, 2014, regulations for per diem rates for inpatient services of a general hospital or a distinct unit of a general hospital for services such as psychiatric, medical rehabilitation, chemical dependency detoxification, chemical dependency rehabilitation, Critical Access Hospitals, specialty long term acute care hospitals, cancer hospitals and exempt acute care children's hospitals may provide for periodic base year cost and statistic updates used to compute rates of payment. The first such base year update shall take effect no later than April 1, 2015, rather than January 1, 2015, as previously noticed. However, the Commissioner may make adjustments to the utilization and methodology for computing these rates as is necessary to achieve no aggregate, net growth in overall Medicaid expenditures related to these rates, as compared to the aggregate expenditures from the prior year. In determining the updated base years to be utilized, the Commissioner shall take into account the base years determined in accordance with Section 2807-c(35)(c).

There is no annual increase or decrease in gross Medicaid expendi-

tures attributable to this initiative contained in the budget for state fiscal year 2014/2015.

- Extends the mandated cost savings associated with the current methodology establishing quality related measures, including, but not limited to potentially preventable re-admissions (PPRs) and providing for rate adjustments or payment disallowances related to PPRs and other potentially preventable negative outcomes (PPNOs). Such mandated cost savings of no less than \$51 million a year are extended for the period April 1, 2014 through March 31, 2015.

- Such aggregate reductions shall be offset by Medicaid payment reductions occurring as a result of decreased PPRs during the period April 1, 2014 through March 31, 2015 and as a result of decreased PPNOs during the period April 1, 2014 through March 31, 2015. Such rate adjustments or payment disallowances will not apply to behavioral health PPRs or to readmissions that occur on or after 15 days following an initial admission.

Long Term Care Services

- For state fiscal years beginning April 1, 2014, continues additional payments to non-state government operated public residential health care facilities, including public residential health care facilities located in Nassau, Westchester, and Erie counties, but excluding public residential health care facilities operated by a town or city within a county, in aggregate amounts of up to \$500 million. The amount allocated to each eligible public RHCFC will be in accordance with the previously approved methodology, provided, however that patient days shall be utilized for such computation reflecting actual reported data for 2012 and each representative succeeding year as applicable. Payments to eligible RHCFC's may be added to rates of payment or made as aggregate payments.

- For residential health care facilities (RHCFCs), adjustments to Medicaid rates of payment based on changes to a facility's case mix index capping any change in such case mix index in excess of two percent for any six month period prior to periods beginning January 1, 2016, or such earlier date as determined by the Commissioner, previously noticed on March 26, 2014, shall not be implemented as a result of the final SFY 2014/15 Executive Budget.

Non-institutional Services

- The current authority to adjust Medicaid rates of payment for certified home health agencies, AIDS home care programs, and hospice programs for purposes of supporting recruitment and retention of non-supervisory health care workers or any worker with direct patient care responsibility has been extended for the period April 1, 2014 through March 31, 2017. Payments shall not exceed in the aggregate, \$100 million for each of the following periods: April 1, 2014 through March 31, 2015; April 1, 2015 through March 31, 2016; and April 1, 2016 through March 31, 2017, and shall be calculated in accordance with the previously approved methodology. Such adjustments to rates of payment shall be allocated proportionally based on each certified home health agency, AIDS home care and hospice programs' home health aide or other direct care services total annual hours of service provided to Medicaid patients, as reported in each such agency's most recently available cost report as submitted to the Department. Payments made shall not be subject to subsequent adjustment or reconciliation.

- Effective April 1, 2014, the Commissioner may implement a Health Home rate add-on to provide resources to Health Homes for the following purposes: (1) member engagement and promotion of Health Homes; (2) workforce training and retraining; (3) health information technology (HIT) and clinical connectivity; and (4) joint governance technical assistance, start-up and other implementation costs, and other such purposes as the Commissioner of Health, in consultation with the Commissioners of the Office of Mental Health and the Office of Alcoholism and Substance Abuse Services, determines are necessary to facilitate the transition of Health Homes beyond their early stages of development. Total payments are estimated not to exceed \$190.6 million. Health Homes will be required to submit reports, as required by the Department, on the uses of such funds.

The overall estimated annual net aggregate increase in gross Medicaid expenditures attributable to reform and other initiatives being clarified in this notice and contained in the budget for state fiscal

year 2014/2015 is \$958.6 million; and the estimated annual net aggregate increase in gross Medicaid expenditures attributable to an extension upper payment limit (UPL) payments noticed herein for state fiscal year 2014/2015 is \$1.58 billion.
