## PUBLIC NOTICE

### Department of State

F-2013-0976

Date of Issuance – May 14, 2014

The New York State Department of State (DOS) is required by Federal regulations to provide timely public notice for the activities described below, which are subject to the consistency provisions of the Federal Coastal Zone Management Act of 1972, as amended.

The applicant has certified that the proposed activity complies with and will be conducted in a manner consistent with the approved New York State Coastal Management Program. The applicant's consistency certification and accompanying public information and data are available for inspection at the New York State Department of State offices located at One Commerce Plaza, 99 Washington Avenue, in Albany, New York.

In F-2013-0976, the New York City Economic Development Corporation (EDC) is proposing to construct the East Midtown Waterfront Esplanade and Greenway. This project involves construction of a 40 foot wide shared-use esplanade from East 41st Street to 60th Street. The esplanade would accommodate bicyclists, pedestrians (walkers, joggers, skaters) within a shared pathway. Upland bridge connections to the esplanade would be provided at East 48th and East 54th Streets, along with areas referred to as "nodes" which are generally wider and would provide areas for safe circulation and stopping and access to water dependent and other uses. The proposed esplanade would be constructed in two sections – U.N. Esplanade from East 41st Street to East 53rd Street and ODR Esplanade from East 53rd to East 60th Street and the structures would be offset approximately 30 feet eastward from the existing bulkhead line.

According to the information provided to the Department of State, the project is intended to meet identified goals of expanding public access to the East River waterfront – improving connectivity and continuity by targeting gaps in the existing access – and to enliven the East River waterfront by providing a range of attractive use opportunities, integrating with adjacent upland communities, and encouraging the integration of water dependent and water enhanced uses.

All proposed activities would be undertaken within the Waterfront Revitalization Program (WRP) planning area for the City of New York. All activities requiring a federal permit or other federal authorizations and which are situated within this planning area are subject to review for consistency with the applicable policies of both

the State and local programs by the Department of State and the New York City Department of City Planning (NYC DCP) respectively.

Any interested parties and/or agencies desiring to express their views concerning the above proposed activities may do so by filing their comments, in writing, no later than 4:30 p.m., 30 days from the date of publication of this notice or June 13, 2014.

Comments should be addressed to the Department of State, Office of Planning and Development, One Commerce Plaza, 99 Washington Ave., Albany, NY 12231, (518) 474-6000, Fax (518) 473-2464.

This notice is promulgated in accordance with Title 15, Code of Federal Regulations, Part 930.
