• Effective on or after April 1, 2015, the Commissioner of Health shall consider criteria for vital access provider (VAP) applications submitted to the Department that includes, but is not limited to:

- The applicant's financial condition as evidenced by operating margins, negative fund balance or negative equity position;

- The extent to which the applicant fulfills or will fulfill an unmet health care need for acute inpatient, outpatient primary or residential health care services in a community;

- The extent to which the application will involve savings to the Medicaid program;

- The quality of the application as evidenced by such application's long term solutions for such applicant to achieve sustainable health care services, improving the quality of patient care, and/or transforming the delivery of health care services to meet community needs;

- The extent to which such applicant is geographically isolated in relation to other providers; or

- The extent to which such applicant provides services to an underserved area in relation to other providers.

Institutional Services

IP Cost Containment - Appropriately Allocate Capital Costs Clarification (Part D/2)

• Clarifies, budgeted capital inpatient costs of a general hospital applicable to the rate year shall be decreased to reflect the percentage amount by which the budgeted costs for capital related inpatient costs of the hospital for the base year two years prior to the rate year exceeded actual costs, will continue effective April 1, 2015 through March 31, 2017.

IP Cost Containment - Continuation of .25 Trend Reduction Clarification (Part D/6)

• Clarifies, the reimbursable operating cost component for general hospital inpatient rates will be established with the 2006 final trend factor equal to the final Consumer Price Index (CPI) for all urban consumers less 0.25% and extends current provisions for services on and after April 1, 2015 through March 31, 2017.

The estimated annual net decrease in gross Medicaid expenditures attributable to these cost containment initiatives contained in the budget for state fiscal year 2015/2016 is \$114.5 million.

Hospital VAP Applications for Financially Distressed (Additional Article VII)

• Effective for the periods of April 1, 2015 through March 31, 2016, the Commissioner of Health may award a temporary adjustment to the non-capital component of rates, or make temporary lump-sum medical assistance payments to eligible general hospitals in severe financial distress to enable such facilities to maintain operations and vital services while such facilities establish long term solutions to achieve sustainable health services. Eligible general hospitals shall include: a public general hospital operated by a county or municipality, but shall exclude any such hospital operated by a public benefit corporation; a federally designated critical access hospital; a federally designated sole community hospital; or a general hospital that is a safety net hospital.

- A safety net hospital shall be defined as having at least 30% of its inpatient discharges made up of Medicaid eligible individuals, uninsured individuals or Medicaid dually-eligible individuals; or

- Such hospital must serve at least 30% of the residents of a county or a multi-county area who are Medicaid eligible individuals, uninsured individuals or Medicaid dually-eligible individuals.

- Eligible applicants must demonstrate that without such award, they will be in severe financial distress through March 31, 2016. Evidence of such distress will be by:

- Certification that such applicant has less than 15 days cash and equivalents;

- Such applicant has no assets that can be monetized other than those vital to operations; and

- Such applicant has exhausted all efforts to obtain resources from corporate parents and affiliated entities to sustain operations.

- For those applicants meeting such criteria, awards shall be made upon application to the Department of Health. Such awards shall include a multi-year transformation plan that is aligned with the Delivery System Reform Incentive Program (DSRIP) program goals and objectives which must be approved by the Department and demonstrate a path towards long term sustainability and improved patient care.

- Initial award payments to eligible applicant may be based solely on the aforementioned criteria; however, the Department may suspend or repeal an award if the eligible applicant fails to submit a multi-year transformation plan that is acceptable to the Department by no later than September 30, 2015.

- Applicants also must detail the extent to which the affected community has been engaged or consulted on potential projects within the application, as well as any outreach to stakeholder and health plans.

- Applications shall be reviewed by the Department to determine an applicant's eligibility; each applicant's projected financial status; each applicant's proposed use of funds to maintain critical services needed by the community; and the anticipated impact of the loss of such services.

- The Department, after review of all applications and determination of the aggregate amount of requested funds, shall make awards to eligible applicants; provided, however, that such awards may be in an amount lower than such requested funding, on a per applicant or aggregate basis.

- Awards issued may not be used for: capital expenditures, including, but not limited to construction, renovation and acquisition of capital equipment, including major medical equipment; consultant fees; retirement of long term debt; or bankruptcy-related costs.

- Payments made to awardees shall be made on a monthly basis. Such payments will be based on the applicant's actual monthly financial performance during such period and the reasonable cash amount necessary to sustain operations for the following month. The applicant's monthly financial and activity reports, which shall include, but not be limited to: actual revenue and expenses for the prior month, projected cash need for current month, and projected need for the following month.

Spousal Support Clarification (Part B/33)

- The initiative previously noticed regarding medical assistance being furnished to applicants in cases where, although such applicant has a responsible relative with sufficient income and resources to provide medical assistance, the income and resources of the responsible relative are not available to such applicant because of the absence of such relative and the refusal or failure of such absent relative to provide the necessary care and assistance was eliminated from the budget for state fiscal year 2015/2016.

Such programs shall provide more appropriate settings and services for these individuals, help prevent out of state placements and allow repatriation back to their home communities. Eligible operators of such programs must have demonstrated expertise in caring for the targeted population and have a record of providing quality care.

- Funds for such programs may include, but not be limited to start up funds, capital investments and enhanced rates.

- Of the demonstrations at least one program shall be designed to serve persons ages 21-35 who are aging out of pediatric acute care hospitals or nursing homes; and at least one program shall be designed to serve persons 21-35 who have a developmental disability in addition to their severe and chronic medical or health problems and who are aging out of pediatric acute care hospitals, pediatric nursing homes or children's residential homes operated under the New York State Office for Persons With Developmental Disabilities.

- The Department of Health shall be responsible for monitoring the quality, appropriateness, and effectiveness of such programs.

The estimated annual net increase in gross Medicaid expenditures attributable to this initiative contained in the budget for state fiscal years 2015/2016 and 2016/2017 is \$2M for each state fiscal year.

Refinancing/Shared Savings (Part B/52)

- Effective on or after April 1, 2015, for facilities with operating certificates granted on or after March 10, 1975, real property costs shall be based on historical costs to the owner of the facility, provided payment for real property costs shall not be in excess of the actual debt service, including principal and interest, and payment with respect to owners' equity.

- Owners' equity shall be calculated without regard to any surplus created by revaluation of assets and shall not include amounts resulting from mortgage amortization where the payment has been provided by real property cost reimbursement.

- Further provided, the Commissioner of Health may modify such payments for real property cases for purposes of effectuating a shared savings program where facilities share a minimum of 50% of savings, for those facilities that elect to refinance their mortgage loans.

There is no additional estimated annual change to gross Medicaid expenditures attributable to this initiative for state fiscal year 2015/2016.

A statewide base price, for such payments, shall be established for each 60-day episode of patient care and adjusted by a regional wage index factor and an individual patient case mix index. Such episodic payments may be further adjusted for low utilization cases and to reflect a percentage limitation of the cost for high-utilization cases that exceed outlier thresholds of such payments.
