PUBLIC NOTICE
 Department of State
 Notice of Routine Program Change
 Town of Penfield
 Local Waterfront Revitalization Program

PURSUANT to 15 CFR 923.84(b), the New York State Department of State (DOS) has submitted a routine program change to the federal Office of Coastal Management (OCM). The change to the New York State Coastal Management Program (CMP) covered by this request is the incorporation of the amendment to the Town of Penfield Local Waterfront Revitalization Program (LWRP) into the State's CMP.

A major component of the State's CMP is the provision that local governments be allowed to prepare and amend Local Waterfront Revitalization Programs, which further detail and make geographically specific the State's coastal policies. Each LWRP is reviewed for consistency with the State's CMP and approved if it meets the guidelines established in the State CMP and Article 42 of the NYS Executive Law.

The Town of Penfield LWRP Amendment is a long-term management program for the Town's waterfront resources along Irondequoit Creek and Bay, prepared under the provisions of Article 42 of the Executive Law and its implementing regulations to update the original Penfield LWRP, approved in 1991. The LWRP Amendment revises the inland alignment of the coastal boundary by excluding the primarily built-out residential neighborhoods east of Empire Boulevard and east of Irondequoit Creek, based on the consideration that the potential future development of these areas could be controlled by existing Town legislation or regulations to have a minimal impact on the adjacent environmentally sensitive areas along Irondequoit Creek and Bay. The Penfield LWRP Amendment also includes revised comprehensive text and graphics describing the existing and proposed land uses and controls adopted since 1991, such as the Environmental Protection Overlay Districts, providing additional protections for wetlands, steep slopes, floodplains, watercourses, and woodlands resources, and the LaSalle's Landing Development District, designed to protect sensitive environmental features and encourage water oriented recreation and other appropriate uses adjacent to parts of Irondequoit Bay. Other regulations reflected in the Penfield LWRP Amendment, adopted since 1991, include: the Construction Stormwater Pollution Prevention and Erosion and Sediment Control Law (Local Law No. 3 - 2007), Design and Management of Post-Construction Stormwater Pollution Prevention Measures Law (Local Law No. 4 - 2007), Stormwater Illicit Discharge Connection Law (Local Law No. 5 - 2007), Town of Penfield Stormwater Management Policy (adopted 1988 and revised 2000), Irondequoit Bay Harbor Management Plan (adopted 2003), Irondequoit Bay Harbor Management Law (adopted 2008), and the Penfield Waterfront Consistency Review Law (adopted 1991 and amended in 2015).

The Town of Penfield prepared the LWRP Amendment in partnership with the New York State Department of State, in accordance with the New York State Waterfront Revitalization of Coastal Areas and Inland Waterways Act and the New York State Coastal Management Program. The draft LWRP Amendment was circulated by the Department of State to potentially affected State, federal, and regional agencies during a review period from May 8, 2013 to July 12, 2013. Following this review period, the Department of State coordinated responses to comments received with the Town of Penfield, and revised the draft LWRP where necessary. The Town of Penfield LWRP Amendment was adopted by resolution by the Town of Penfield Town Board on March 4, 2015, and approved by the New York State Secretary of State on May 26, 2015, pursuant to the New York State Waterfront Revitalization of Coastal Areas and Inland Waterways Act (NYS Executive Law, Article 42).

The Town of Penfield Local Waterfront Revitalization Program is available online at http://www.dos.ny.gov/opd/programs/WFRevitalization/LWRP__status.html

Any comments on whether or not the action constitutes a routine program change to the State's approved Coastal Management Program

should be submitted by July 10, 2015 to: Jackie Rolleri, Stewardship Division, Office of Coastal Management, National Oceanic and Atmospheric Administration, 1305 East-West Highway, Silver Spring, MD 20910

Further information on this routine program change may be obtained from: Renee Parsons, Office of Planning and Development, NYS Department of State, 99 Washington Ave., Suite 1010, Albany, NY 12231-0001, (518) 473-2464
