

State and Federal actions will affect and be affected by implementation of the LWRP. Under State law and the U.S. Coastal Zone Management Act, certain State and Federal actions within or affecting the local waterfront area must be "consistent" or "consistent to the maximum extent practicable" with the enforceable policies and purposes of the LWRP. This consistency requirement makes the LWRP a unique, intergovernmental mechanism for setting policy and making decisions and helps to prevent detrimental actions from occurring and future options from being needlessly foreclosed. At the same time, the active participation of State and Federal agencies is also likely to be necessary to implement specific provisions of the LWRP.

The first part of this section identifies the actions and programs of State and Federal agencies which should be undertaken in a manner consistent with the LWRP. This is a generic list of actions and programs, as identified by the NYS Department of State; therefore, some of the actions and programs listed may not be relevant to this LWRP. Pursuant to the State Waterfront Revitalization and Coastal Resources Act (Executive Law, Article 42), the Secretary of State individually and separately notifies affected State agencies of those agency actions and programs which are to be undertaken in a manner consistent with approved LWRPs. Similarly, Federal agency actions and programs subject to consistency requirements are identified in the manner prescribed by the U.S. Coastal Zone Management Act and its implementing regulations. The lists of State and Federal actions and programs included herein are informational only and do not represent or substitute for the required identification and notification procedures. The current official lists of actions subject to State and Federal consistency requirements may be obtained from the NYS Department of State.

The second part of this section is a more focused and descriptive list of State and Federal agency actions which are necessary to further implementation of the LWRP. It is recognized that a State or Federal agency's ability to undertake such actions is subject to a variety of factors and considerations; that the consistency provisions referred to above, may not apply; and that the consistency requirements can not be used to require a State or Federal agency to undertake an action it could not undertake pursuant to other provisions of law. Reference should be made to Section IV and Section V, which also discuss State and Federal assistance needed to implement the LWRP.

B. FEDERAL AND STATE ACTIONS NECESSARY TO FURTHER THE LWRP

1. Federal Actions and Programs

a. Department of Defense, Army Corps of Engineers

- (1) Authorization of Dredging, etc: Will be important to maintain navigation on the Rondout Creek and specifically to develop the proposed boat launch on the Sleightsburg peninsula; Erosion Control Structures can be used to protect portions of the proposed park on the peninsula and to repair deteriorated bulkheads along the Creek.

b. General Services Administration

- (1) Disposition of Federal Surplus Land and Structures: May be appropriate for the Esopus Meadows Lighthouse upon agreement as to restoration by an appropriate user.

c. Department of the Interior

- (1) Outdoor Recreation-Acquisition, Development and Planning: Such assistance could be used to acquire and develop the proposed waterfront park on the Sleightsburg peninsula.
- (2) Historic Preservation Grants-in-Aid: Could be used to restore historic properties including the Esopus Meadows Lighthouse.

d. Department of Transportation

- (1) Coast Guard: Cooperation and assistance with regard to disposition of Esopus Meadows Lighthouse for appropriate reuse.

2. State Actions and Programs

a. Department of Agriculture and Markets

- (1) Administration of the Agricultural Districts Program: Can be used to preserve open space in the low density riverfront areas.

b. Department of Environmental Conservation

- (1) Permits for Transportation of Water by Vessel and Approval of Plans for Wastewater Treatment: If issued in conformance with LWRP policies will help preserve the quality of the Hudson River and the Town's water supply.

- (2) Mining Permit: Monitoring of activities at the Callanan Quarry and review of reclamation progress will help to ensure the eventual reclamation of this site in accord with LWRP policies.

c. Office of Parks, Recreation and Historic Preservation

- (1) Land and Water Conservation Funds: Can be used to acquire and develop the proposed waterfront park.
- (2) Nomination to State and Federal Register of Historic Places: Can designate appropriate structures and districts making them eligible for funding and tax incentives.
- (3) Historic Preservation Funds: Can be used for restoration of the Lighthouse and other significant structures.

d. Department of State

- (1) Funds for LWRP Implementation: Can be used for pre-construction activities for such projects as park acquisition and development, study of the feasibility of Lighthouse restoration and reuse and other public facilities.

e. Department of Transportation

- (1) Design, Construction and Rehabilitation of State Highways: Can include improvements to Route 9W south of Port Ewen to create scenic overlooks, and preserve stone walls and maintain vistas.

SECTION VII

CONSULTATION WITH OTHER AFFECTED STATE,
REGIONAL AND LOCAL AGENCIES

VII. CONSULTATION WITH OTHER AFFECTED FEDERAL, STATE, REGIONAL AND LOCAL AGENCIES

A. Local Consultation

Consultation has consisted of maintaining a close liaison with other Town agencies whose actions or functions may be affected by the LWRP. The chairman of both the Planning Board and Environmental Board serve on the Waterfront Advisory Committee and have kept their respective boards informed of progress. In addition, a meeting was held with each board to review the entire program. A presentation to the local historical society was also made.

The only other local government likely to be affected by the LWRP is the City of Kingston, on the north side of the Rondout Creek. Since the City is also preparing an LWRP, the Town's consultant met with the City Planner to exchange preliminary drafts and review possible conflicts. At this point no conflicts have been identified.

B. Regional Consultation

1. Ulster County Planning Board: A meeting was held with the staff of the Planning Board early in the program to inform them of the nature of the LWRP and to offer them the opportunity to comment on County concerns which the program might address. A number of suggestions were made and have been incorporated in the program. A copy of the first draft was referred to the staff and no potential conflicts with county programs were identified.
2. Heritage Task Force for the Hudson River Valley: The director of the Task Force was consulted with regard to the Esopus Meadows Lighthouse. The Task Force has been involved in an effort to preserve the four Mid-Hudson lighthouses and their advice and consultation was sought in this regard. They were able to share the experiences at the other three lighthouses and provide general support.

C. State Agency Consultation

1. Department of Environmental Conservation: Numerous contacts were made to gather data concerning flood hazard management, wetland designations and fish and wildlife resources.
2. Department of State: Consultation with the Department of State has taken place throughout the preparation of the LWRP. In addition to matters directly dealing with preparation of this program discussion has concerned methods of implementation and legal and programmatic concerns.

D. Federal Consultation

No direct federal consultation has taken place at this time.

SECTION VIII

LOCAL COMMITMENT

VIII LOCAL COMMITMENT

From the inception of the LWRP, it was recognized that involvement and commitment by both local officials and citizens was essential to the development of an effective program and to carrying out the various tasks to achieve its implementation. The program to achieve local commitment is described below:

A. Waterfront Advisory Committee

The first action taken by the Town Board following approval of the LWRP planning grant was to invite interested citizens and members of local boards to participate in the program. The appointment of a Waterfront Advisory Committee was made from this group. The Committee includes former members of the Town Board, members of business, civic, planning and environmental groups, and residents of the waterfront area.

The Committee was assigned major responsibility for guiding and developing the program. During the planning period the Committee met at least once a month. Subcommittees were formed to discuss policy, consider alternative approaches and recommend specific actions. The entire Committee has endorsed the program developed herein and recommended to the Town Board that it be adopted.

B. Public Meetings

The general public has been informed of the planning process through periodic releases and through participation in two public meetings. The first meeting was held at the start of the program to determine public concerns, to explain the purpose of the program and its potential benefits and to set forth the schedule and procedures to be followed. The second meeting was held at a point when the policies had been established and a program determined but when modifications were still possible based on public response. A final public hearing will be held prior to approval by the Town Board.

C. Town Board Briefings

The Supervisor and the Town Board have followed the activities of the Waterfront Advisory Committee and the preparation of the LWRP throughout the planning period. The supervisor is the local official responsible for the preparation of the program and has attended many Advisory Committee meetings as well as attending to various administrative functions.

The Town Board received copies of preliminary reports and was provided with several briefing sessions at which it had an opportunity to express its concerns and discuss the rationale for various elements of the plan.
