Routine Program Change

STATEWIDE - Pursuant to 15 CFR 923.84(b)(4), the New York State Department of State (DOS) hereby gives notice that the federal Office of Ocean and Coastal Resource Management (OCRM) concurred on July 12, 2012 on the incorporation of an amendment to the Town of Hamburg Local Waterfront Revitalization Program (LWRP) into the State's Coastal Management Program (CMP) as a Routine Program Change. DOS requested OCRM's concurrence on this action on March 28, 2012 and in a previous notice in the New York State Register, which further described the content of the action.

The Town prepared an amendment to its LWRP in partnership with DOS and in accordance with the New York State Waterfront Revitalization of Coastal Areas and Inland Waterways Act and the New York State Coastal Management Program. The Town amended its LWRP to better reflect proposed land uses to be accommodated within the Local Waterfront Revitalization Area in accordance with revised zoning controls adopted by the Town, and based on the Town's recently completed Comprehensive Plan. The zoning amendments include adoption of the Route 5 Overlay District, the Lakeview Overlay District, and the Park/Recreation Lands District. The Route 5 Overlay District includes measures to improve the quality of development and aesthetics along Route 5, a major thoroughfare within the waterfront area. The Lakeview Overlay District supports the renewal of existing commercial development areas in an effort to revitalize the Lakeview hamlet and provides for diversification of the land uses in this area. The Park/Recreation Lands District promotes a variety of passive and active recreation uses. These zoning changes serve to strengthen the ability of the Town to implement the policies and uses set forth in the LWRP. Also, to more effectively manage and protect land uses and environmental resources in the waterfront area, the amendment proposes a modification of the current State Coastal Boundary. The LWRP serves as a long term comprehensive coastal management program for the Town's Erie Lake waterfront resources, and is based on the policies of the New York State Coastal Management Program.

Pursuant to the New York State Coastal Management Program and Article 42 of the New York State Executive Law, the amendment to the Town of Hamburg LWRP was adopted by the Town Board on May 23, 2011 and approved by the New York State Secretary of State on March 9, 2012.
