PUBLIC NOTICE

Department of Environmental Conservation

Pursuant to Article 19 of the Environmental Conservation Law, the Department of Environmental Conservation hereby gives notice of the following:

STATEWIDE

NOTICE OF AVAILABILITY OF AIR ENFORCEMENT GUIDANCE MEMORANDUM

STATEWIDE — The Department of Environmental Conservation has prepared an Enforcement Guidance Memorandum (EGM) extending the limited amnesty period for small businesses established in a November 1, 1994 EGM. This revision has been made necessary by unforeseen delays in the implementation of revisions to the 6 NYCRR Part 201 "Construction and Operating Permits" rule. Part 201 is currently being revised to incorporate the requirements of Title V of the Clean Air Act and to further regulatory reform in the state permitting program.

The revised EGM establishes an Interim Amnesty Period which will be effective immediately and will terminate upon the Department's adoption of the pending revisions to Part 201. Pursuant to the terms of the EGM, qualifying small business may entirely avoid penalties associated with their failure to have a certificate to operate by submitting an application for a permit to construct and operate or by submitting a Letter of Intent (forms are attached to the EGM). This Interim Amnesty policy also provides for qualifying small businesses that would be exempted under the proposed revisions to Part 201 to be treated as if the proposed exemptions are already in effect.

Copies of the EGM may be obtained by writing or calling Elissa Armater, Legal Assistant, New York State Department of Environmental Conservation, Division of Environmental Enforcement, Room 609, 50 Wolf Road, Albany, New York 12233-5500, phone (518) 485-8477. Comments on the EGM may be submitted in writing to Charles Fox, Senior Attorney, at the same address.

compliance with 6 NYCRR Sections 212.10, 214.9, 216.5, and 220.6, well as Sections 227-2.4, 228.1, 229.1, 233.1, and Part 234.1. The regulations require Reasonably Available Control Technology (RACT) at major and other facilities for oxides of nitrogen (NOx) and volatile organic compounds (VOCs) from industrial processes which are required to obtain Certificates to Operate pursuant to 6 NYCRR Part 201.

Effective May 31, 1995, for those sources that have attempted to comply in good faith, the Department is extending the RACT compliance deadline for the above referenced regulations to December 1, 1995. Sources owners and/or operators who are making efforts to comply, but will not make the May 31, 1995 deadline, may request an extension until December 1, 1995.

Pending and short compliance deadlines require immediate issuance of the EGM to provide guidance to DEC staff and the regulated community. However, during the next six months, the DEC will consider revisions to the EGM if experience and/or comments raise significant issues or areas to improve the document. Copies of the EGM may be obtained by writing or calling Elissa Armater, Legal Assistant, New York State Department of Environmental Conservation, Division of Environmental Enforcement, Room 609, 50 Wolf Road, Albany, New York 12233-5500, phone (518) 485-8477. Comments on the EGM may be submitted in writing to the same address, attention Alison Smith, Program Counsel.
